MARYVILLE, MISSOURI, MONDAY, OCT. 11, 1915.

NO. 111.

COX RETURNED BURRIS NEW HEAD

DR. CHRISTY BECOMES PASTOR OF
BIG KIRKSVILLE CHURCH.

REV. SAMPLE GOES TO BURLINGTON JUNCTION

Superintendent Here Comes From
Kirkville District—Other Pas-
toral Changes in County.

The Rev. Gilbert S. Cox was re-
turned to the pastorate of the First
Methodist church in this city by the
appointments of Bishop W. O. Shepard
at Cameron at 1 o'clock today.

The Rev. W. P. Burris, district su-
perintendent of the Kirkville district,
will become district superintendent of
the Maryville district, succeeding Dr.
W. B. Christy. Mr. Burris is 55 years
old and has been a district superin-
tendent for thirteen years, serving one
term of six years on the Cameron dis-
trict.

Dr. Christy was sent to the station
at Kirkville. The Kirkville charge
has a membership of 500 and pays
\$2,000. Its church house is valued at
\$20,000 and the parsonage at \$3,500.
Rev. C. J. English, the pastor of the
church, becomes district superintendent
of the Brookfield district. Rev.
Burris was field secretary of Missouri
Wesleyan college in 1901.

O. L. Sample to Burlington Junction.
The Rev. Orlando L. Sample was ap-
pointed to Burlington Junction com-
ing from the Broadway church at Han-
nibal, where he has been for three
years. He is a classmate of Mr. Cox
at Baker university and Boston uni-
versity. He is 38 years old. He will
succeed Rev. T. C. Middleton, who has
resigned.

Rev. Clarke Baker becomes the pas-
tor at Barnard, succeeding Rev. J. L.
Bilby. Rev. Baker has been pastor at
Albany during last year, and at Dar-
lington the year before.

W. H. Holland, who has been at
Sheridan and New Hampton during the
last two years, goes to Clearmont. W.
F. Wiley goes to Bolckow.

E. R. Kelley becomes pastor at Pick-
ering, W. T. Lutz at Elmo and F. A.
Tinney at Graham. All the other pas-
tors in Nodaway county were returned
to their charges.

G. P. Sturgeon goes to Maitland; A.
C. Brown to Stanberry; Lane Douglas
to Mound City; H. J. Moody to Sher-
idan; J. B. Bennett to Fillmore; F. C.
Fay becomes district superintendent
of the Kirkville district, succeeding
Rev. Burris.

Rev. N. E. Bottom, who has been
at Clearmont, took the superannuated
relation.

Burris a General Delegate.

H. C. Bower, the lay delegate from
Maryville, returned last night, and Mr.
Cox is expected tonight. The members
of the church and the citizens of Mary-
ville, although feeling certain that Mr.
Cox would be returned, are pleased to
be assured of his return for another
year.

The delegates to the general confer-
ence to be held at Saratoga, N. Y., next
May are Dr. H. R. DeBra, president of
Missouri Wesleyan college at Cam-
eron; the Rev. W. F. Burris, superin-
tendent of the Kirkville district, and
the Rev. J. W. Anderson, pastor at
Oregon, were elected the conference
delegates. The lay delegates appoint-
ed were: A. W. Baker, Brookfield;
Miss Maude McMurray, Savannah, and
R. D. Cottey, Cameron.

Marriage Licenses.

Marriage licenses were granted Sat-
urday to Jesse Earl Walker of Bur-
lington Junction and Hazel May Jones
of Hundley, Neb.; Walter Smith and
Ethel Dick of Maryville; French Henry
and Grace Beson of Bedford; George
Davis and Lizzie Green of Maryville.

Mrs. S. J. Yeomans returned to her
home in Hopkins this morning after a
week's visit with her son, Fred Yeo-
mans, county clerk.

GYM WORK FOR TEACHERS

Normal, High and Grade School Women
to Attend Weekly Class in Folk
Games and Esthetic Dancing.

A class in gymnasium work, folk
games, and esthetic dancing for the
women teachers of the Normal, high
school and ward schools will begin to-
night in the gymnasium of the high
school with about twenty enrolled.

The class will be under the direction
of Miss Eugenie M. Norton, who comes
from Chicago to organize the class.
She expects to start a class for chil-
dren later if sufficient interest is taken.

A program of the two classes may
be given in the spring. Miss Norton
received her training in that work at
the Hinman school in Chicago and
under Cecil Sharp of London.

SCHOOL PROGRAM NOV. 12

Ward Children to Raise Funds for
Supplies.—City Teachers Will Not
Go To Kansas City.

HOLIDAYS OCTOBER 28-29.

The teachers of the ward schools are
planning an entertainment by the pu-
pils of those schools to be given at the
Central building November 12.

No definite program has been ar-
ranged yet. The purpose of the en-
tertainment is to buy certain supplies
which are desired but which the board
does not feel at liberty to buy with
public funds.

The instructors in both grade and
high schools have decided not to go to
Kansas City for the annual meeting
of the State Teachers' association in
November but to attend the meetings
of the county association which will
be held here October 28 and 29.

Those days will be declared a school
holiday all over Maryville and the county.

KEEP CIDER SWEET.

By Canning It Can Be Preserved at
Any "Bead" Wanted.

Cider may be kept either perfectly
sweet or with whatever "bead" the
taste of the user suggests, according
to Miss Carrie Pancoast of the Mis-
souri College of Agriculture. It may
be canned immediately or allowed to
stand for a few days, but in either case
the method used includes filling fruit
jars with the cider and adding a ta-
blespoonful of sugar to each quart, if
desired. Place the rubber and top in
position and tighten partially, in case
of glass jars; or if tin is used, cap and
tip the cans.

An ordinary wash tub or similar
vessel may be used in sterilizing. La-
ths or thin boards should be laid
across the bottom to avoid heating the
glass too rapidly and cracking it. Put
in water enough to fill the vessel an
inch or two above the jars, heat to
boiling, put the jars in, and let boiling
continue for ten minutes. Then re-
move, tighten the covers, and invert in
order to test the lids while cooling.

Other processes that may be used in-
volve sterilizing for eight minutes with
a water seal outfit, for four minutes
under five pounds pressure with a
steam pressure outfit, or for two min-
utes with an aluminum pressure
cooker.

To Visit at Lincoln.

Miss May McShane of Kansas City,
who has been visiting her grand-
mother, Mrs. John Vaughn, left Sat-
urday night for a visit with relatives at
Lincoln, Neb. She was accompanied
by her aunt, Mrs. T. J. Tobin, living
near Burlington Junction.

Bigger and Bigger.

Raisers of big pears will have to
come again. Wm. Diss now comes for-
ward with a pear raised out at his
home that weighs one and a half
pounds and measures thirteen and
three-fourths inches around. Who can
beat that?

Nodaway county was represented on
the St. Joseph market by the follow-
ing patrons: Boyer & Co., Walker &
Baker, James Blagg, A. M. Sutton, Will
N. Wray, Guilford; A. M. Sutton, Bar-
nard, and H. Hopkins, Arkoe.

FAMOUS IN 2 LINES

ALICE NIELSEN FIRST WON FAME
IN LIGHT OPERA.

GRAND OPERA STAR, TOO

Born in Nashville, She Sings Southern
Melodies With Special Charm—
Here October 26.

We haven't much longer to wait. The
coming of Alice Nielsen and the open-
ing of the lyceum season is only two
weeks away. The tickets will be put
on sale Wednesday and will be in-
creased in price after the first num-
ber.

This great American prima donna
is specially welcomed because she is
an American girl. She was born in
Nashville and received her early mu-
sical training there. She was a lead-
ing singer by the time she had reached
her teens. Her first success was in
light opera.

In a short time Miss Nielsen was
the head of her own company, but relin-
quished the fame and fortune of light
opera within a few years and went to
Europe to study the classics.

She is said to be the only musician
who has made a success in grand
opera after first having achieved a
reputation in light opera.

Her operatic debut was made in
Italy with immediate success. En-
gagements at all the important opera
houses of Europe followed. In 1904
she sang at Covent Garden, London,
with Melba, Destinn, Caruso and
others, appearing in "Don Giovanni,"
the great presentation in which Des-
tinn made her London debut. Espe-
cially has she won fame as "Mimi" in
La Boheme, having sung that role to
the "Rodolfo" of Caruso many times.

Sings Many Southern Melodies.

Her southern birth gives Miss Niel-
sen a familiarity with the old favorite
songs of that region which never fail
to delight her audiences. She closed a
five months' Chautauqua tour Septem-
ber 6, which was a continual triumph.
The announcement of this tour was
widely heralded throughout musical
circles, and received with the greatest
interest. It is the first instance in
which so celebrated a musical artist
has appeared on a great chain of
Chautauquas. Leading musical jour-
nals commented upon the tour as an in-
novation which would open a new and
broader field to the greatest musical
talent.

The private car in which Miss Niel-
sen traveled over this circuit was used
by ex-Presidents Taft and Roosevelt
when they made their swing-around-
the-circle campaign tour of the coun-
try. Madero, the famous Mexican, also
traveled from coast to coast in it. Lil-
lian Russell has made extensive tours
in this car and Sarah Bernhardt her
farewell tour of America.

Miss Nielsen's tour, however, repre-
sents the longest time this car has
been used by any one celebrity since it
was built.

GUARDIAN WAS APPOINTED.

Mary Ellen Hackett Found to Be In-
capable of Managing Her Affairs
by Jury in Probate Court.

Mary Ellen Hackett of Burlington
Junction was found to be a person of
unsound mind and incapable of man-
aging her affairs by a jury in probate
court this morning. The jury was
composed of Fred Rogers, M. Nusbaum,
John J. Lavelle, Alfred Royston, J. W.
Sawyers, G. W. Hartley, J. S. Casteel,
J. B. Horton, J. G. Mutz, Ezra Phipps,
J. M. Swinford. Edward E. Hackett
was appointed guardian of her person
and estate.

Two Vagrants in Police Court.

Hugo O'Connor was fined \$5 and
costs for drunkenness in police court
by Judge U. S. Wright this morning.
Two vagrants were also given a force-
ful invitation to spend eleven days
each on the city rock pile for "wan-
dering from place to place without any
visible means of support."

Attends Operators' Meeting.

Omar Wallace, operator at the Bur-
lington station, went to St. Joseph
Saturday night, where he attended a
meeting of Burlington operators.

Fannie Hackett was appointed cura-
tor of the estate of Mildred A. and
Frances W. Hackett, both minors, in
probate court this morning.

Spend Week End.

Mr. and Mrs. Lester Slipes returned
last night from a week-end visit with
relatives at Forbes.

JUDGE ELLISON TOOK SICK

While On the Bench in Circuit Court
This Afternoon—Cases Were Con-
tinued Until the Next Term.

Judge W. C. Ellison took sick this
afternoon while on the bench hearing
the case of Howard J. Beedle vs. Chi-
cago Great Western Railroad company,
and as the parties could not agree on a
special judge, the suit was continued,
as was also all other contestant cases,
to the next term and the jury was dis-
charged. A jury had been selected in
this case and the attorneys had made
their statements to the jury when
Judge Ellison announced that he was
unable to hear the case. Mr. Ellison
has been indisposed for the past few
days.

A day of circuit court will probably
be held within the next few weeks to
dispose of all motions, but all jury
cases will not come up until the next
term.

MAY FORCE GREECE

BELIEVED IN ROME THAT ALLIES
WILL DEMAND ACTION

AFTER ROUMANIA ALSO

Double Purpose Seen in Landing of Al-
lies at Saloniki—None Leav-
ing Bulgaria.

Special to The Democrat-Forum.

Rome, Oct. 11.—It is reported here
that the allies will take strong steps to
force Greece and Roumania to enter
the war on their side. The impression
prevails that the landing of large
forces on Greek soil is to compel this
action ultimately, as well as to aid
Serbia.

The representatives of the entente
powers at Athens, while exercising no
pressure on the Greek government, are
urging it to reply to the question put
last Thursday in regard to its future
course respecting the Serbo-Grecian
alliance. The cabinet deliberated this
question at length yesterday and today,
but has not succeeded in reaching any
agreement.

No One Leaving Bulgaria.

Paris, Oct. 11.—The Bulgarian gov-
ernment has forbidden the subjects of
the allied powers to leave the country,
giving as its reason that the railroads
are needed for mobilization.

This move is taken to indicate the
declaration of war upon the allies by
Bulgaria soon. The intervention of
Italy into the Balkan situation is be-
lieved imminent.

The allies have landed 30,000 more
troops at Saloniki and the movement
continues. The belief that Germany
wants to get through to Turkey be-
cause of her need of copper and cotton
is strong among the allied powers. For
that reason large forces have been
sent to Serbia.

Nineteen Turkish Ships Sunk.

Petrograd, Oct. 11.—The Russian ad-
miralty announced the sinking of nine-
teen Turkish ships this morning. They
were attacked by two torpedo boats off
the coast of Anatolia.

The boats which were sunk Thurs-
day were loaded with food and munitions.

NOT COUNTING THE COST

Germans Are Piling Dead in Front of
French Trenches in Counter
Attacks.

ARTILLERY DUEL IS ON.

Special to The Democrat-Forum.

Paris, Oct. 11.—The Germans are
making furious efforts to regain their
trenches from the French army in
Champagne, and are not counting the
cost. All the counter attacks were
repulsed.

Nearly 8,000 bodies of German sol-
diers were found in front of the French
trenches in the Louvain region and
north of Loos. The artillery duels and
bombardments at other points are in-
tense.

CORN YIELD LARGER

ESTIMATE PLACES INCREASE
OVER 1914 AT FIFTY MILLIONS.

232,000,000 BUSHELS

Crop Report for October by Secretary
of State Board of Agriculture
is Cheering.

The Missouri corn crop for 1915
promises to surpass that of 1914 by
fifty million bushels. This cheering
statement is from the October crop
report issued Saturday from the office
of the secretary of the state board of
agriculture. The report in full fol-
lows:

With good weather for fall work,
the Missouri farmer is in fine fettle.
September conditions were not the
best, the rainfall being much above
normal, but there were no killing
frosts. Apparently, the first heavy
frosts of the fall is here this morn-
ing—October 9. Preceded by several
days of sunshine, this frost has, how-
ever, done but little damage, although
coming a few days earlier than for the
average season.

Corn.

Corn has made a substantial advance
in condition since our last report. On
September 1 the condition was 75.4. It
is now given as 84—a gain of more
than 8 points. One year ago corn con-
dition was 65. Present condition, by
crop division sections, is reported as
follows: Northeast, 79; northwest, 84;
central, 89; southwest, 83; southeast,
85. Quality of corn is placed at 89,
being lowest in the northeast and high-
est in the central section. Correspond-
ents estimated 87 per cent of the crop
safe from frost on October 1. It is
probable that only the late corn has
suffered and that the loss will not be
heavy. A preliminary estimate as to
yields, as reported by correspondents,
shows 32 bushels per acre as a prob-
able state average. By sections, this
preliminary estimate shows yields per
acre as follows: Northeast section,
30 bushels; northwest, 34.2; central,
37.5; southwest, 27.1; southeast, 31.
Based upon these figures and esti-
mating a 3 per cent decrease in the
original planting of 7,495,000 acres, a
yield of about 232,000,000 bushels for
the state is indicated. It should, how-
ever, be borne in mind that the corn
crop is "spotted," uneven and hard
to estimate in advance and that the
final figures may show a decided dif-
ference. The 1914 corn crop consisted
of 175,159,000 bushels. It is estimated
that 67 per cent of the farmers are
now feeding new corn. It is believed
that the opening price will be about 60
cents per bushel.

Wheat.

Wheat sowing is unusually late, ow-
ing to a wet September and to fear of
Hessian fly. Correspondents estimate
that but 19 per cent of the crop had
been seeded by October 1. It is fur-
ther figured that 26 per cent of the
wheat ground is yet to be plowed. In
some of the northern counties thresh-
ing from the shock is just being com-
pleted. Much stack threshing remains
to be done. Quality of wheat is dis-
appointing and there is nothing to in-
dicate that the final figures on the
yield will be better than were the
preliminary figures. Soil condition is
81. Under unfavorable circumstances
and with a disappointing market, the
acreage for the new crop will be re-
duced. Correspondents estimate the
acreage at 79 per cent. By sections it
is: Northeast, 78; northwest, 62; cen-
tral, 81; southwest, 80; southeast, 95.

Miscellaneous.

Clover and timothy seed crops will
be light, both in acreage and yield.
Pastures continue excellent, the con-
dition for the state being 100. Live
stock of all kinds is going into the
winter in the best of condition. In
southern Missouri the nut and acorn
crops are heavy, thus insuring the
best of mast. Condition of tobacco is
92; cotton, 70; cowpeas, 81; alfalfa,
80. With the exception of a few va-
rieties, the apple crop is good, and in
orchards properly cared for the qual-
ity is much above the average. Acre-
age of rye is only about 80 per cent
of last year's seeding. This is due to a
wet September, and to an abundance
of grass and forage for feed.

Saturday Was a Big Day.

Although the crowds did not seem
as large Saturday as the one the week
before, merchants say that everybody
was buying "big." H. L. Haines re-
ports that he sold ten dozen of a spe-
cial kind of waist he had advertised
Friday. The light plant carried the
heaviest load it has had in three years
Saturday night.

SHOT BY RECTOR HOLLEY

Lansing Pearsall Killed This Morning
—Police Investigating, Not Being
Satisfied With Explanation.

New Orleans, Oct. 11.—Entering his
study early this morning, Rev. Byron
Holley, rector of St. George Episcopal
church, the most fashionable in the
city, shot and killed Lansing Pearsall,
a special investigator of the Gould
railways, whom he found in the room.
Rev. Holley told the police he ordered
Pearsall to leave and shot him when
Pearsall tried to draw a weapon, and
that the victim was unknown to him.
Pearsall is well known here and the
police are investigating, not being sat-
isfied with the explanation.

MAY WED IN TWO WEEKS

Friends of President and Mrs. Galt
Urging Early Marriage to
Avoid Publicity.

HONEYMOON AT PASS CHRISTIAN.

Special to The Democrat-Forum.

Washington, Oct. 11.—President Wil-
son and Mrs. N. R. Galt, his fiancée,
consider spending their honeymoon at
Pass Christian, Miss. The president
spent a Christmas vacation there two
years ago.

If this plan is followed, the bridal
party will be the guests of Misses
Mary and Lucy Smith, cousins of the
president. They are visiting at the
White House now and are urging a re-
turn visit.

Mrs. Galt's trousseau is being rushed
and Washington would not be sur-
prised if the wedding occurred within
two weeks. Friends are urging this
because of the disagreeable publicity
which attends every move of either
the president or Mrs. Galt.

Quite a number of purchases were
made by President Wilson this morn-
ing looking toward the marriage,
which added weight to the rumor of a
wedding soon. The party spent yester-
day in Baltimore with Joseph R.
Wilson, a brother of the president.

PERHAPS HELL COME LATER.

President Wilson Tells San Diego
School Children He Can't Attend.
Special to The Democrat-Forum.

Washington, Oct. 11.—President Wil-
son, in response today to an invitation
of the school children of San Diego to
visit their exposition, said that it was
impossible for him to leave at the
present time.

LYNCHING IN MISSISSIPPI.

Negro and Chinaman Taken From Jail
After Baker's Murder.

Special to The Democrat-Forum.

Clarksdale, Miss., Oct. 11.—A negro
and a Chinaman, suspected of the
murder of a banker who found bur-
glars in his home, were taken from
the jail here last night by a mob and
hung.

Here From Wisconsin.

Mrs. E. A. Root of Beloit, Wis., is
visiting in Maryville with her nieces,
Mrs. Henry Wright and Mrs. J. F. Hull,
and families.

The Epworth League of the First
M. E. church will hold a business
meeting at the home of Miss Edna
O'Neal, 118 South Market street, to-
night.

ALEX COULD NOT REPEAT; LOST 2-1

YIELDED SIX HITS AND RED SOX
WON IN NINTH.

PHILLIES GOT THREE ONLY OFF LEONARD

Boston Made an Error, Letting Phila-
delphia Score First—Crowd Largest
Ever at a Ball Game.

The Summary of Third Game.

The score: R.H.E.

Philadelphia001000000—1 3 0

Boston000100001—2 6 1

Batteries—Alexander and Burns;
Leonard and Carrigan.

Special to The Democrat-Forum.

Braves Park, Boston, Oct. 11.—The
mighty Alexander could not repeat to-
day and the third of the world series
games went to Boston 2-1. "Dutch"
Leonard, opposing him, yielded but
three hits while the Red Sox were col-
lecting six safeties.

Boston made the only error of the
game, letting the Quakers start the
scoring in the third. The game was
tied up in the following inning. The
winning run went over in the last half
of the ninth.

The largest crowd which ever
watched a base ball game saw the best
pitcher of the year and one of the
greatest of all time fall before the
wrecking crew of the American league
team from Beantown.

Boston, that city once known the
Hub of Culture, is in the throes of
baseball frenzy. All else seemed to be
forgotten this morning when the day
opened with a bright sun and a crisp
autumn day.

The checking of the wheels of indus-
try during most of the afternoon was
threatened when 46,000 fans crowded
the new Braves' park where the games
will be played. Fancy prices were
paid to ticket speculators and scalpers
this morning.

The "Beaneaters" were confident to-
day that the Red Sox could defeat
Alexander this time. The betting last
night was 6 to 5 for the Phillies but
the large amounts of Boston money
changed the odds by morning to 5 to
4 on Carrigan's crew.

Most of the odds were given by Bos-
ton, regardless of who pitches. Phila-
delphia fans were just as certain,
however, that Moran would pilot Alex-
ander and the Quakers through to an-
other victory.

Ten thousand of these stood in line
all night and 6,000 more had joined
them before the sale of bleacher tickets
started. The clear night enabled many
to sleep in their places and all were
sitting on camp stools or boxes.

The biggest crowd ever on record
is in Boston and the hotels are reaping
a rich harvest. Manager Carrigan
says "The Red Sox struck their stride
Saturday and will win the series."

Moran said that his bunch was
ready to get busy again.

THE WEATHER

Unsettled weather tonight and
Tuesday; probably rain; colder to-
night; colder Tuesday.

TONIGHT KEYSTONE NIGHT

THE LITTLE TEACHER, 2 reel Keystone, featuring
Fatty Arbuckle, Mabel Normand and Max Sennett.

RASCAL'S WOLFISH WAY, 2 reel Keystone.

THE KINSHIP OF COURAGE, the story of a young
reactionary. First time shown in Maryville.

Empire Theatre

5 and 10 cents

5 and 10 cents

BABY NIGHT, FERN TONIGHT

100 babies will be shown, life size, on the screen and because of
of the added expense of having an expert photographer here
all week, the admission will be Children, 10 cents, Adults, 15
cents. Big five reel program with the Baby Show. See it!

Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

It is time now to discard your summer furs.

Cold weather is coming on now. Better lay in a stock of fur anklets.

That American consul at Munich is probably aware by this time that Wilson will take no "gaff" from Gaffney.

President Wilson said of the world series ball game, "It was capital!" A new version of "bully!" we take it.

One of the queer quirks of modern life is seeing a veterinary using an automobile regularly.

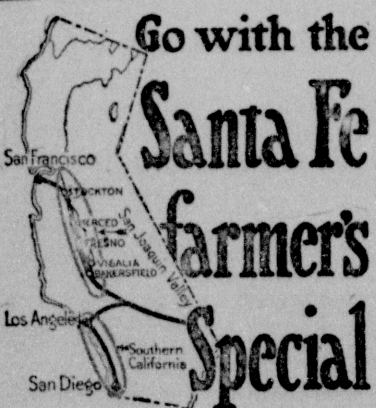

Columbia, Mo., is troubled with a coal famine. Perhaps it will be a blessing if they have to burn up all the paddles of the sophomores.

It seems that the president has been carrying on other diplomatic correspondence that was not entrusted to Mr. Bryan or the state department.

A lot of people will ride a hundred miles to hear a foreigner screech in Italian who wouldn't go into the next block to hear real music in their native tongue.

The Republicans have decided to call to the colors the class of 1846. According to their decision, Oldman Tariff will have to hobble through another campaign.

A letter from an American official

Go with the
Santa Fe
Farmer's
Special

Spend two weeks in seeing California in connection with your visit to the two Expositions.

This tour is especially for rural folks and others interested. I want you to see the San Joaquin Valley and talk to the people about the greater production per acre, the balmy, healthful climate, the year-round growing season. You will be the guests of many communities in Southern California and San Joaquin Valley. You will be taken on auto trips to see their farms, orchards and homes. We have no land to sell. We just want you to see and know California.

Let me tell you at what small cost this trip will be made. We will live on our own special cars most of the time, so saving hotel bills. Go with us on the Santa Fe, stop a day at Grand Canyon and return Santa Fe or any direct route.

This party will leave Chicago October 14, reach San Francisco about October 30, and return from there at your pleasure up to December 31. You'll see rural California—as you could see it in no other way. You'll see the two great world expositions. Also you'll see the Grand Canyon of Arizona.

Make reservations promptly, to insure getting space wanted—the time is short. Write me to-day for itinerary, particulars and rates.

**PUBLIC
ROADS**

IMPORTANCE OF ROAD REPAIR

Impression That There Are Certain Types of Highways That Are Permanent Is Erroneous.

There is no phase of the road problem more important than that of maintenance. The general impression that there are certain types of roads that are permanent is erroneous. No permanent road has ever been constructed or ever will be, according to the road specialists of the United States department of agriculture. The only things about a road that may be considered permanent are the grading, culverts and bridges. Roads constructed by the most skillful highway engineers will soon be destroyed by the traffic, frost, rain and wind, unless they are properly maintained. A poor road will not only be improved by proper maintenance, but may become better in time than a good road without it.

The first and last commandment in earth road maintenance is to keep the surface well drained. To insure good drainage the ditches should be kept open, all obstructions removed and a smooth crown maintained. Except for very stony soil the road machine or scraper may be used very effectively for this work. The machine should be used once or twice a year and the work should be done when the soil is damp so that it will pack and bake into a hard crust. Wide and shallow side ditches should be maintained with sufficient fall and capacity to dispose of surface water. These ditches can in most places be constructed and repaired with a road machine.

All vegetable matter such as sods and weeds should be kept out of the road as they make a spongy surface which retains moisture. Clods are also objectionable for they soon turn to dust or mud and for that reason roads should never be worked when dry or hard. Boulders or loose stones are equally objectionable if a smooth surface is to be secured.

A split-log drag or some similar device is very useful in maintaining the surface after suitable ditches and cross sections have once been secured. This drag can also be used to advantage on a gravel road as well as on an earth road. The principle involved in dragging is that clays and most heavy soils will puddle when wet and set very hard when dry. The little attention that the earth road needs must be given promptly and at the proper time if the best results are to be obtained.

In dragging roads only a small amount of earth is moved, just enough to fill the ruts and depressions with a thin layer of plastic clay or earth which packs very hard so that the next rain instead of finding ruts, depressions and clods in which to collect runs off leaving the surface but little affected.

The drag should be light and should be drawn over the road at an angle of about forty-five degrees. The driver should ride on the drag and should not drive faster than a walk. One round trip, each trip straddling a wheel track, is usually sufficient to fill the ruts and smooth the surface. If necessary the road should be dragged after every bad spell of weather, when the soil is in proper condition to puddle well and still not adhere to the drag. If the road is very bad it may be dragged when very wet and again when it begins to dry out. A few trips over the road will give the operator an idea as to the best time to drag. Drag at all seasons, but do not drag a dry road.

The slope or crown of an earth road should be about one inch to the foot. If the crown becomes too high it may be reduced by dragging toward the ditch instead of from it. If the drag cuts too much, shorten the hitch and change your position on the drag. If it is necessary to protect the face of the drag with a strip of iron, it should be placed flush with the edge of the drag and not projecting. A cutting edge should be avoided, as the main object in dragging is to smear the damp soil into position.

Usually Too Narrow.

The average roadway is crowned too narrow. Sixteen feet, in these days of autos and auto trucks, is none too much, and where travel is heavy 20 would be better.

Use of Slip-Log Drag.

Next to permanent road building comes a systematic and intelligent use of the slip-log drag.

Roads Should Be Crooked.

Good roads in the future should be built on the zig-zag plan for the avoidance of hills and steep grades, the federal office of good roads announced recently in declaring that the lives of horses and automobiles could be lengthened thereby and the cost of hauling reduced materially. The experts contend that "the longest way around often may be the shortest and most economical way home," and deprecate the natural tendency to build straight roads whenever they must breast heavy grades.

We have never had a more complete or beautiful stock of DRESSES as now—Most anything you might want in a Dress you will find it here and at a reasonable price.

MATERNITY DRESSES

We have added this fall to our stock a beautiful line of Maternity Dresses.

Haines

THE STORE QUALITY BUILT

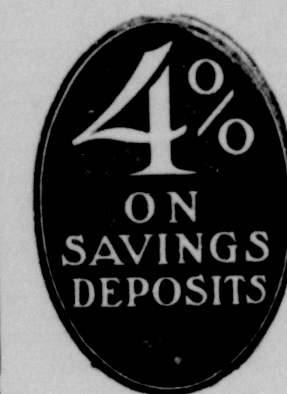

Rice With Cheese.—Take a half cupful of rice, drop it gradually into two cupfuls of boiling water and add more water as it cooks, if necessary. When perfectly tender let the water cook off, allowing the steam to escape. Make a rich cream sauce, using two tablespoonfuls of butter, two of flour and a cupful of rich milk or thin cream, cook until smooth. Mix the sauce with the rice, adding a cupful of grated cheese. Put into a baking dish and bake until hot. The cheese will be stringy if allowed to stay too long in a hot oven.

Rice With Tomatoes.—Cook the rice using a cupful of tomato juice at the last when nearly tender. This will be absorbed, then serve with a well seasoned, strained tomato sauce. To get the juice strain a can of tomato. To get the pulp for the sauce, put the tomato through a sieve.

Buy Advertised Merchandise

Because—Merchants and manufacturers must put quality back of advertised goods if they expect their business to be permanent.

Because—Advertised articles are the latest in their line. It doesn't pay to advertise an article that is inferior.

Because—By advertising greater quantities are sold and the cost is reduced.

Because—Advertised goods have responsibility back them and you are protected in buying.

Because—The merchant or manufacture who is willing to advertise his merchandise and tell you about it, is cutting out the guess work in buying. Because you know what you are buying.

SOCIETY and CLUBLAND

By KATE SCHENCK
PHONES—OFFICE 42. HOME 682

Calendar.

A meeting will be held tonight at the First Christian church by the class of Endeavor efficiency. The meeting will open at 7:30 o'clock and is for any person interested in the study of methods and principles of Christian Endeavor work.

The regular meeting of the Order of the Eastern Star will be held at 7:30 o'clock Tuesday night in Masonic hall.

The Westminster Guild will meet at 7:30 o'clock Tuesday night at the home of Miss Nellie Hudson, 221 North Mulberry street.

The meeting of the Shakespeare department of the Twentieth Century club which was to have been held Tuesday afternoon at the home of Mrs. Lewis White, has been deferred a week on account of the district federation meeting.

The Amoma class will hold a social evening in the parlors of the First Baptist church Thursday night.

The Ladies Aid society of the First Methodist church will meet Thursday afternoon at the home of Mrs. S. J. DeArmond of East Third street.

The Auditorium class of the First Christian church will hold a social meeting Thursday night at the home of Mr. and Mrs. Dick Strong.

The October meeting of the Women's Missionary society of the First Presbyterian church will be held Friday afternoon instead of Thursday afternoon and it will be at the home of Mrs. Winfield Scott.

The Ladies Aid Society of the Buchanan Street Methodist church will meet Friday afternoon at the home of Mrs. R. G. Allan of West Third street.

The Mission Circle of the First Christian church will meet Saturday afternoon at the home of Mrs. George Pat Wright to give the October program.

Change in Plans.

Because of a change in plans for the district federation meeting of women's clubs, the members of the state board who arrive in the city tonight will be entertained at the Linville hotel, and in consequence the meals which were to be served by the women of the First Christian church will not be commenced until Wednesday night dinner. The meals, until after luncheon Wednesday, will be taken at the Linville, and Wednesday night dinner, Thursday luncheon and dinner will be served at the church. Those who will take any or all of these three meals with the Christian women are asked to call Mrs. M. G. Tate, president of the Twentieth Century club, by noon tomorrow, as arrangements must be made in order to accommodate the crowd properly. The board meetings, which are private, and executive sessions will be held in the church, as

Asthma-Catarrh and Bronchitis

Can Be Greatly Relieved by the New External Vapor Treatment.

Don't take internal medicines or habit forming drugs for these troubles. Vick's "Vap-O-Rub" Salve is applied externally and relieves by inhalation as a vapor and by absorption through the skin. For Asthma and Hay Fever, melt a little Vick's in a spoon and inhale the vapors, also rub well over the spinal column to relax the nervous tension. 25c, 50c, or \$1.00.

will the district federation sessions of Thursday. The reception, which opens the convention, will be held at the library rooms of the State Normal school. Mrs. James B. Robinson, president of the Ladies' Aid society of the Christian church, is superintending the serving of the meals.

Bosley Dinner Party.

Mr. and Mrs. W. S. Bosley entertained at a dinner given to celebrate the sixty-eighth birthday anniversary of Mr. Bosley. Plates were laid for Mr. and Mrs. Elmer Bosley and daughter, Ruby, of Stanberry; Mr. and Mrs. William Eib, Mr. and Mrs. Frank Bailey, Mr. and Mrs. Homer Worl, Mr. and Mrs. Marion Luger, Miss Bessie Worl, Clarence Bailey, Mildred, Floyd and Clara Opal Bailey, Harry Wampler, Frauline, Irene, Dorothy and Harriett Bailey, Alfred Luger, LaVerne Worl, Miss Hattie Bosley, Albert Bosley and the hosts.

To Attend Meeting.

Miss Mary Q. Evans and Miss Lucile Airy will leave tomorrow for Sioux City, Ia., to attend the branch annual meeting of the Women's Foreign Missionary society of the Methodist church. Miss Evans will represent the Maryville church society and Miss Airy will go in place of Miss Kate Willis, branch agent of supplies.

Gives House Party.

Misses Tina and Jessie McClain of Skidmore entertained a number of their friends for an over-night house party Saturday and Sunday breakfast. The guests were Misses Alice and Lela Farley, Miss Beulah Horn, Miss Alta Stultz and Miss Beulah Hoagland. At a supper given Saturday night additional guests were Ray Armstrong, George Jensen and Orville Mathews.

For Mr. and Mrs. Finch.

Mr. and Mrs. W. H. Gilbert were dinner hosts Saturday night, when they entertained the Rev. and Mrs. Robert Lyle Finch and son, Robert, Jr. Mr. and Mrs. Finch and son were also complimentary guests of a dinner given yesterday noon by Mr. and Mrs. Fred P. Robinson.

Jones-Walker.

Jesse Walker of Burlington Junction and Miss Hazel May Jones of Hundley, Neb., were married at 6 o'clock last evening by the Rev. Robert Lyle Finch, pastor of the First Christian church. The ceremony took place at the home of Mrs. Margaret Starr and was witnessed by a party of friends from this city and Burlington Junction.

P. E. O. Chapter Meets.

The P. E. O. chapter held its first study meeting for the year at the home of Miss Carrie Hopkins Saturday afternoon. The leader of the program was Miss Mabel Wells, and readings were given by Mrs. Arch K. Frank and Miss Alice Worst. A victrola program added to the entertainment of the members.

O'Neal Dinner Party.

Mr. and Mrs. J. E. O'Neal entertained with a family dinner party at noon yesterday, arranging the gathering to celebrate the birthday anniversary of Mrs. O'Neal. Plates were laid for Mr. and Mrs. O'Neal, Mr. and Mrs. Robert Aley and sons, Stanley, George Jr., and Donald; Mr. and Mrs. Lon Thompson and children, Gladys, Herman, Highland and Lois Margaret, and Miss Edna O'Neal.

Motor Party to Tarkio.

Mr. and Mrs. Charles Jensen, Mrs. Lily Martin and daughter, Emily Levita; Mr. and Mrs. S. A. McClurg and son, Edgar; Mrs. Ella Neal and family went in the Jensen and McClurg automobiles to the home of Mr. and Mrs. William Stewart, of near Fairfax, yesterday. It was the twenty-sixth anniversary of the wedding of Mr. and Mrs. Stewart. After a dinner, in which fried chicken was the principal attraction, the Stewart car joined the party in a trip to Fairfax and Tarkio.

To Give Recital.

The first of the regular recitals to be given by the Conservatory of Music

will be held tonight in the recital hall. Those participating in the program are Misses Ruth Jones, Mildred Shindabarger, Mildred Bellows, Dorothy McShool, Mrs. James B. Robinson, president of the Ladies' Aid society of the Christian church, is superintending the serving of the meals.

Dick-Smith.

Miss Ethel Dick, the daughter of Mr. and Mrs. J. T. Dick, living four miles east of the city, and Mr. Walter Smith were married at 1 o'clock yesterday at the home of the bride's parents, the Rev. Lewis M. Hale, pastor of the First Baptist church, reading the marriage service. The ceremony was followed by the serving of an elaborate wedding dinner, at which about forty relatives and friends were entertained. Mr. and Mrs. Smith will make their home on the Anderson Craig farm.

Celebrates Seventh Birthday.

Mary Jean, the daughter of Mr. and Mrs. E. L. Ferritor of West Fourth street, celebrated her seventh birthday anniversary Saturday, and in the afternoon entertained a number of small friends with a game party. Leila Tibbetts won the prize in a peanut hunt, and Darlene Garten in a ring contest. A supper of ice cream, cake and candies was served. The grown-ups who entertained the children were Mrs. Ferritor, Miss Grace Ferritor and Miss Martha Helpley, and the little folks present were Mary Dougan, Leila Tibbetts, Pauline Mahoney, Darlene and Clara Bertha Garten, Musette Helpley, Ardelle Marie King, Rosanna McCullough, Frances Helpley, Lillian Murray, Anna Lattin, Maxine Awalt, Donna Helpley, Josephine Lattin and Mary Jean Ferritor.

Attends Family Reunion.

Mr. and Mrs. Omer Wallace and son went to St. Joseph yesterday, where they attended a reunion of Mr. Wallace's family, the Weavers, held at the parental home.

Becker Dinner Party.

Mr. and Mrs. Henry Johnson Becker were the hosts of a dinner given yesterday, when they entertained Mr. and Mrs. W. E. Goforth and children, Doris and Donald.

Mr. and Mrs. Gross Entertain.

Mr. and Mrs. William Gross gave a dinner at noon yesterday in honor of their daughter, Mrs. Wesley Cox of Barnard. Plates were laid for Mr. and Mrs. Cox, Mrs. Hill and Mr. and Mrs. Howard Whaley and family.

Motor to St. Joseph.

Mr. and Mrs. George B. Baker and Mr. and Mrs. Ed F. Wolfert motored to St. Joseph Sunday afternoon. Another motor party to St. Joseph Sunday afternoon was composed of Mr. and Mrs. Will J. Montgomery and Mr. and Mrs. Will F. Phares.

Miss Wright Hostess.

Miss Lucile Wright entertained the Queen Esther Circle of the First Methodist church at her home, on North Main street, Saturday afternoon. Instrumental numbers were given by Miss Mildred Bellows, and readings by Miss Vjune Colden and Miss Clara Wray. Miss Ruth Tinney was a special guest.

J. D. Taylor Celebrates Birthday.

J. D. Taylor, living northeast of the city, reached his sixty-third birthday yesterday, and to celebrate the event the people of the Myrtle Tree congregation surprised him by holding a basket dinner. Mr. Taylor is teacher of the Men's Bible class, and after the dinner pictures were taken of the class and also of the crowd present. Every one brought a well filled basket and the dinner was spread in picnic fashion. Those in the party were Mr. Taylor, Mr. and Mrs. Clinton Davis, Mr. and Mrs. John Appleby, Mr. and Mrs. Sam Craven, Mr. and Mrs. Arthur Wiley, Mr. and Mrs. D. A. Appleby, Mr. and Mrs. John Shrock, Mr. and Mrs. O. J. Willhoite, Mr. and Mrs. Charles Wells, Mr. and Mrs. Roland Wray, Mr. and Mrs. Charles Nichols, Mr. and Mrs. Lloyd Casteel, Mr. and Mrs. Albert Dowden, Mr. and Mrs. Art Dowden, Mr. and Mrs. Jesse Dowden, Mr. and Mrs. Forrest Dowden, Mr. and Mrs. Ira Kelley, Mr. and Mrs. Artie Craven, Mr. and Mrs. J. H. Neal, Mr. and Mrs. Wilson Wray, Mr. and Mrs. Perry Farrens, Mr. and Mrs. Will Partridge, Mr. and Mrs. Lincoln Partridge, Mr. and Mrs. Roy Kelley, Mr. and Mrs. M. S. Casteel, Mrs. Miranda Miller, Mrs. Ernest Wray, Mrs. Etta Crigger, Mrs. John Dowling, Leonard Appleby, Misses Lila and Evelyn Dowden, Flora Appleby, Alma Appleby, Velma and Melba Appleby, Cecile Wiley, Grace and Mildred Wiley, Lola and Lula Dowden, Lillian and Hattie Crigger, Leola, Bernice and Bessie Shrock, Marguerite and Louise Wells, Pearl Neal, Ada Walters, Mildred Davis, Zetah Kelley, Dorothy Dowden, Mary Margaret Wray, Kittie Taylor, Dorothy Alice Craven, Leora Willhoite, Lawrence Wray, Orville Willhoite, Ralph Dowden, Gilbert and Harold Neal, Charles Appleby, Arthur Crigger, Clinton Davis, Jr., Eugene Wells, Forrest Dowden, Harold Farrens, Robert Taylor Wray, Forrest Wells, Wilson, Leslie, Franklin, Harold, Harvey and Wesley Dowden and Stanley Davis.

Orchard Information

CULTIVATION IN AN ORCHARD

Some Sort of Straw Mulch Will Act as Protection From Heaving Caused by Frost and Thaw.

(By R. B. HOWE, Colorado Experiment Station.)

There are two main reasons for cultivating—to make plant food available and to conserve moisture. In cultivating, the soil particles are broken up and the root hairs passing in among the small particles take up plant food from the soil water. The plant food goes into solution in the soil water as the rock and particles in the soil decompose. More often we cultivate to kill the weeds, but really to conserve moisture. After each rain the soil is packed down to some extent, and this crust, which forms upon the surface with the drying of the soil, will draw water from the subsoil to the surface by capillarity. When we cultivate this surface crust is broken up and the water does not so readily escape from the sub-surface to the air, and is held for use by the plant. The fruit crop requires a great deal of water to mature fruits of good size. In dry seasons the size of the summer fruits is liable to be small on account of the insufficient water supply. Where the fruit garden is a small plot of ground sufficient to supply the table with fruit it is difficult to take time to cultivate the strawberries and blackberries, and for this reason the use of some sort of a straw mulch will be best to help retain the moisture in the soil for the plants. The mulch is plowed under after the crop has been taken off and a new mulch applied in the fall after the ground is well frozen, when it will also act as a protection from the heaving caused by the frosts and thaws.

HOW TO PREPARE BORDEAUX

A Few Suggestions in Regard to Its Proper Mixing—Formula Most in Use at Present Time.

As bordeaux is probably the most used fungicide at present, a few suggestions in regard to its proper mixing will not be out of place. The formula most in use at present is four pounds of copper sulphate (blue vitriol) four pounds of good lime and 50 gallons of water. The granulated form of copper sulphate should be used, and only well-burned lime which is not air slaked should be used. Be sure to use lime enough. If time is poor or if there is any fear of bordeaux injury to the fruit add another pound of lime.

The lime and copper sulphate should be prepared in different receptacles, preferably half barrels. The copper sulphate should be held in a sack at the top of the half barrel and allowed to dissolve. Never put the copper sulphate in the bottom of the barrel. When slaking the lime add the water a little at a time so as not to kill the heat from the lime. When the slaking is completed and when the copper sulphate is all dissolved and both mixtures have been brought up to 25 gallons, they may be put together after a thorough mixing. Be sure to pour the copper sulphate into the lime, which has previously been put into a mixing barrel or the spray pump. Do not pour the lime into the copper sulphate, as the mixture obtained is not good bordeaux and will oftentimes do injury instead of being beneficial.

TIMELY WORK IN ORCHARDS

Farmers Should Guard Against Ravages of Mice and Rabbits—Prune During Winter Weather.

The protection of orchards against damage by mice and rabbits is work which may well be pursued in the fall, particularly in the case of young orchards, and when that is completed the season's pruning may be begun. Fall is really the beginning of the pruning season, and there are many advantages in doing as much as possible of this work during favorable weather of early winter. About the only objection which may arise to

Enemies of Young Trees.

doing this work before spring comes from localities where the winters are cold and dry, and there it is frequently found that wounds which are made in the fall dry out during the winter to such an extent that the bark is killed for a considerable area around the wound, making the wound many times larger than it would have been otherwise.

Tip the Raspberry Plants.

Now is the time for tipping black raspberry plants if you want to raise new plants. As the new growth bends over the ground, each tip should be buried in the soil a few inches and held in place by piling up a little earth upon it. Next spring the tips will have roots, when the plants can be cut off from the parent bushes and planted wherever they are wanted.

TREATING HOGS WITH SERUM

Produces Immunity of Sufficient Duration to Allow Ample Time for Cleaning Up the Yards.

(By J. B. GINGERY, Missouri Experiment Station.)

The veterinary department of the Missouri agricultural experiment station has been recommending and using the serum alone treatment. The question is often heard, "Why the serum alone treatment?" The serum alone treatment properly administered has for its object the control and eventually the absolute eradication of hog cholera. It makes it possible in a large measure to do away with vaccination with its attending cost and trouble. The serum alone treatment is a safe method to use and is simple. It can be handled with good results by the careful inexperienced man. There are none of the bad after results such as sometimes follow other treatments.

Serum alone can neither start new outbreaks of cholera nor bring the infection on your noninfected farm. When administered under proper conditions it produces an immunity of sufficient duration to allow ample time for cleaning up and disinfecting the yards and in this way destroying the infection before the hogs outgrow the immunity. Under ordinary conditions this is of far greater importance than simply protecting hogs from the cholera for a varying period of time and not making any attempt to avoid harboring the germs. The germs, whether in the litter about the pens or in the virus of the double treatment, will cause the disease to develop. If cholera is to be controlled it is necessary to destroy the germs. The use of the serum alone is to protect the hogs until the germs can be destroyed by cleaning up, burning and disinfecting.

PROTECT STOCK FROM FLIES

Fine Spray of Kerosene Oil is Effective in Keeping Insects Off Animals—Other Remedies.

Sometimes a fine spray of pure kerosene is very effective in knocking off flies. This spray should not be heavy enough to penetrate the hair, or it will blister the skin. Another spray is made by the use of ordinary coal tar dip or creosote two parts, mineral oil four parts, water ten parts. This is usually put on with a brush or a sponge.

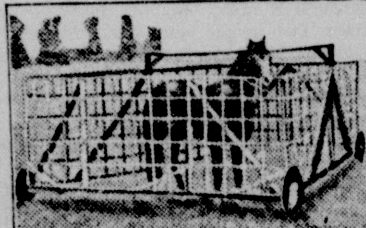

Of the mixtures classed as "repellents," the following is supposed to be very good: One gallon fish or whale oil; one pint coal oil; two ounces crude carbolic acid. A little melted resin is supposed to make these mixtures stick to the hair a little better. Another remedy suggested is ten parts lard or axle grease to one part of pine tar. Such mixtures are usually disagreeable to apply, and the bad odor is generally a greater nuisance than the presence of the flies.

The principal advantage of light sprays is that they drive the flies away during milking time. These have to be applied every day and do not keep the flies off very long. The repellent mixtures are usually applied twice a week, and will keep flies off from two to four days.

PASTURE FENCE ON WHEELS

Interesting Solution Offered by Illinois Farmer to Problem of Caring for Spirited Horse.

A portable pasture fence, made out of the framework of set pieces of fireworks, is the interesting solution offered by an Illinois farmer to the problem of caring for a spirited horse which runs itself out in a large meadow.

Excellent for Nervous Horse.

ow. The little pasture is 16 by 20 feet and the fence is mounted on wheels. One man can move it easily. The horse seems quite contented, and when one piece is grazed sufficiently, the fence is moved to a fresh piece. Popular Mechanics.

BALANCED RATION FOR EGGS

Satisfactory Feed Is Made of Corn, Wheat, Oats, Alfalfa, Beef Scraps and Linseed Meal.

The following ration is fairly well balanced for egg production: One hundred and fifty pounds each of cracked corn and cracked wheat, 20 pounds each of wheat bran, middlings, cornmeal, ground oats and gluten meal, 30 pounds beef scraps, five pounds each of alfalfa meal and old process linseed-oil meal.

For hens having free range of the farm, a very simple ration is made of equal parts cracked corn and cracked wheat, and a dish of beet scraps to which they can help themselves.

Good Land Wasted.

Get after the old briars and weeds along the line fence. Why not use the old mower that has been superseded by a new one. It would be interesting to know just what proportion of good land in this country is allowed to go to waste along line fences.

ALSATIANS DISAPPOINTED.

Flying From Germany Because of French Sympathy.

Berne, Oct. 11.—The "Bund" reports that several thousand Alsatis, whose sympathies for France prompted them to flee across the French border in the early stages of the war, are vainly trying to return to their homes. When they left Germany they expected to be received with open arms by the French nation, but they suffered bitter disappointment. As most of them speak the French language only brokenly, they were treated with distrust and few of them obtained employment. The authorities in almost all cases refused them aid, and after they had sold the few valuables they possessed they were threatened by starvation.

During the last four or five weeks hundreds of these fugitives appeared on the Swiss border with the intention to return to Alsace by the way of Switzerland. They had to be rejected, as they were likely to become public charges, if the German government would not allow them to return to their native villages. Two or three thousands of them are now in the French towns along the frontier waiting for the answer of the German government to an appeal that has been made in their behalf by the president of Switzerland and the Red Cross society.

THIS GERMAN PESSIMISTIC.

Commander of Armies in Turkey Says Sea Power Ultimately Prevails.

Geneva, Oct. 11.—Marshal Von der Goltz, the German commander of the Turkish army, makes the following statement in the course of a long article in the current number of the German publication, "Direction of the War:":

"Of two adversaries whose forces are equal, he that is master of the seas will finally gain the victory.

"The exhaustion of financial means, obtained by the destruction of commerce and the suppression of maritime operations, will undermine the military power of the adversary, and will end by annihilating his energies."

CROSS TO OLD PEASANT WOMAN.

Remained Under Shell Fire to Nurse Wounded Soldiers.

Accordingly, King Albert has conferred the Civic Cross of 1914-15 on her.

PUBLIC SALE

HENS REQUIRE ANIMAL FOOD

Nothing Yet Found That Answers Purpose as Well as Beef Scraps—Produce Stronger Chicks.

The modern hen, the bird we are forcing to lay more eggs each year, has developed into sort of an egg machine. Part of the food she eats goes to make blood and bone and muscle for her own body. The rest of the food, if it is of the right sort, goes to make eggs.

But the best hen in the world can't make eggs from the air. The eggs a hen lays come directly from the food she eats.

Since it is not possible to furnish bugs and worms such as the hens find for themselves, we must look for a good substitute. Up to the present time nothing has been found that answers so well as beef scrap.

The beef scrap must be absolutely sweet and pure, or trouble is sure to follow.

This is especially true in the breeding season, when it is necessary not only to get eggs, but eggs that will hatch well. It has been found that eggs laid by hens that have been fed beef scrap not only hatch better than those laid by hens that have not been fed any animal food, but they also produce stronger chicks.

BEST POULTRY FOR MARKET

Enormous Amount of Inferior Product Largely Affects Prices—Ship Only Best Quality.

Nothing but the best quality of poultry should be shipped to market. Only those who ever visited the large markets know of the enormous amount of inferior poultry that is sold, and which largely affects the prices; yet there is always a demand for that which is good, and at a price above the regular quotations.

Assorting the carcasses before shipping also leads to better prices. Old roosters, which seldom sell at more than half price, should not be in the same boxes or barrels with better stock, and to ship poultry alive, and to have roosters in the coops with fat hens, is simply to lower the price of the hens, as the buyer will estimate the value by the presence of the inferior stock.

Selling Eggs for Hatching. If you are selling eggs for hatching, a visit to the best breeding farm you can easily reach, will pay you well. Observe closely the methods followed there, and then improve on them all you can.

Good high grade Franklin county, Illinois, nut coal, \$5.00 per ton. Wm. Everhart. 11-13

Night School Opens Tonight.

The night school of the Maryville Business college will open tonight at 7 o'clock. It is not known how many will be enrolled, but the management has enough promises to presage a very successful winter. They will meet Monday, Wednesday and Friday from 7 to 9 o'clock.

Miss Mabel Hunt returned yesterday from a visit with friends at St. Louis, Macon City and St. Joseph.

Good high grade Franklin county, Illinois, nut coal, \$5.00 per ton. Wm. Everhart. 11-13

THE KITCHEN CABINET

If you have a kind word—say it. Throbbing hearts soon sink to rest; If you owe a kindness—pay it. Life's sun hurries to the west.

Days for deeds are few, my brother. Then today fulfill your vow. If you mean to help another, Do not dream if—do it now.

PALATABLE DISHES.

Carrots are so wholesome and cheap that they should be served at least once a week, if not oftener. They are especially good cooked, then chopped and seasoned with butter, salt and a dash of lemon juice. Serve hot.

Carrot Patties.—Put six boiled carrots through a meat chopper, break over them two fresh eggs and mix well. Rub six crackers fine and add to the first mixture. Season with salt, cayenne pepper, a little lemon juice and form into cakes, then fry a delicate brown. Serve very hot garnished with parsley.

Russian Sauce.—To four tablespoonfuls of freshly grated horseradish add a teaspoonful of mustard, one-half a teaspoonful of sugar, a little salt, a dash of cayenne and two tablespoonfuls of vinegar. When served with fish, add two tablespoonfuls of melted butter.

Raisin Sandwiches.—With one cupful of seeded raisins chop an equal quantity of nut meats. Mix to a paste with fresh, sweet butter and spread on toasted crackers or thin slices of brown bread. Cut the bread very thin for the sandwiches.

Casserole of Heart.—For a medium sized heart slice rather thin one tart apple, one potato, one onion, one carrot and season with salt and pepper. Cut the heart so that it may be stuffed with the vegetables. Place it in a casserole with the remaining vegetables and cover with seasoned stock. Cover and bake for three hours. When done, remove the heart to a platter, surround with the vegetables and a gravy, thickened slightly. Garnish with parsley and serve. This meat is good sliced cold.

Date Filling for Cake.—This may be used as filling for any kind of cake and will be found delicious. Take two cupfuls of dates, remove the stones and chop in small pieces, take half a cupful of powdered sugar, two tablespoonfuls of lemon juice and a half a cupful of whipped cream. Mix all together and spread on the cake.

Nellie Maxwell

HINTS FOR THE POULTRYMAN

Chickens Must Be Given Good Attention for Best Results—Keep Hens in Vigorous Health.

If you want to get the best results from your chickens you must give them attention.

You must keep your hens in good health, providing coops that are clean and well ventilated, and allowing the chickens the run of orchard or pasture through the day.

You must feed your hens well for growth and development. They should go to roost with crops well filled with wholesome grains, after returning from the range, and plenty of skim milk and water should be available through the day.

You must see that your hens have shade in which to rest. If trees and shrubs are not plentiful, burlap or gunny-sack shades should be put up.

You must keep your broody hens in airy coops and feed and water them well. They will recover from their broodiness in five or ten days.

You must gather your eggs daily and market them at least twice a week.

DIFFERENT COLOR OF CHICKS

Downy Covering of Many of Purebreds Is Opposite to Hue When Fully Covered With Feathers.

Those who buy eggs of certain breeds of black fowls, having no experience with the breed, often write back in wrath to the firm from which eggs were purchased, declaring if they were cheated, as the chicks hatched from the eggs were nearly all white, or more white than black in the color.

The downy covering of many of the purebred breeds is different in color from what the full-feathered covering will be. For instance, the whiter the down of the chicks of some black breeds the blacker that chick when grown; the grayer the down of a newly hatched White Rock the whiter it will be when grown.

It is the same with some breeds of white geese; they come out of the shell as gray as mice, but that color all departs.

FOUR SOUND POULTRY FACTS

Infertile Eggs Keep Best During Heat of Summer—Best Plan to Segregate the Roosters.

Fertile eggs spoil quickly in summer weather. 2. Infertile eggs keep best and market best in summer heat.

3. Fertile eggs are produced if the roosters are allowed to run with the hens.

4. Infertile eggs are produced if the roosters are kept from the hens.—Ohio Agricultural College.

THE KITCHEN CABINET

Some of your hurts you have cured. And the sharpest you still have survived. But what torments of grief you endured From evils which never arrived.

AROMATIC VINEGARS.

Those who enjoy changes in flavor and well seasoned delicacies will keep on hand a supply of various vinegars.

Pepper Vinegar.—Select 18 pods of red peppers, take out the stems and cut the pods in two; place them in a kettle with two quarts of vinegar and boil it away to a quart. Strain and seal. This is a fine flavor to add to catchup for fish sauce.

Many of the herbs used in aromatic vinegars may be raised in the home garden. A mint bed, nasturtiums, parsley, thyme, marjoram and others are all attractive flavors to be preserved in some form to be used in sauces.

Dry tarragon may be purchased if the fresh plant cannot be obtained. Allow a half pint of leaves to a quart of vinegar, steep in the vinegar for two weeks, strain through flannel, bottle and seal.

Horseradish Vinegar.—Pour a quart of boiling vinegar over one and a half cupfuls of grated horseradish, add two tablespoonfuls of sugar and one of salt and let stand one week, strain, bottle and keep to serve with meat and fish, to flavor salads, salad dressings and many other dishes.

Spice Vinegar.—Place the spices in a small bag and take them out when the vinegar seems sufficiently spicy, as otherwise the spice darkens the vinegar. For all these vinegars use cider vinegar for the foundation. Take two ounces each of parsley, thyme, sweet marjoram, mustard, celery seed, and one ounce each of allspice, cloves, pepper and mace; place in a jar and cover with a quart of vinegar; let it stand three days, then strain through a cheesecloth and bottle.

Celery Vinegar.—Pound three tablespoonfuls of celery seed in a mortar, add to a pint of vinegar and shake every day for two weeks, then strain and keep for use. Mint is prepared in the same manner. A large bunch of fresh mint, bruised, is placed in a pint of strong cider vinegar. Let stand for two weeks, strain and it is ready for use. Mint vinegar made three years ago is aromatic and fine-flavored yet

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED

Best for Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

What More Is There?

A Missouri editor has figured it out that the women do not need any more rights, since a man can't sell his house and lot without his wife's consent; he must pay bills whatever they are; if he deserts her, she can jug him, if he deserts him he has to take his medicine; if he jilts her she can mulch him for breach of promise; if she jilts him he gets the laugh; if he dies she gets the property, if she dies he gets the funeral expenses; if he whips her he gets the whipping post, if she hits him with the skillet the world concludes that he deserved it. And still she wants more rights.—Albany Ledger.

SOURD MILK FOR CHOLERA

Brooklyn Man Makes Suggestion of Simple Expedient for Stamping Out Disease of Hogs.

(By A. COCHRAN, Brooklyn, N. Y.)

In the "hog belt" the loss from cholera is keenly felt. This loss in the United States last year was in excess of \$50,000,000. I believe this disease could be stamped out by the addition to the hog's ration of any of the several forms of "soured milk"—that is, of buttermilk or soured skim milk. I know that farmers who are both hog raisers and dairymen often utilize skim milk in feeding hogs. Is there any record of animals so fed—where the milk has been allowed to sour—that have contracted cholera?

Metchnikoff has shown the wonderfully inhibiting effect of lactic acid and the bacteria producing it upon the flora of the human intestine, and the idea has been applied with marked success to the control of "white diarrhoea" in chickens. It would appear that most intestinal diseases, both in man and the lower animals, would yield to the simple expedient of feeding a moderate quantity of soured milk daily. Why not try it on the hog?

Run No Risks.

The man who keeps high-class draft mares to perform his farm work cannot afford to put them into the hands of an incompetent hired man.

OUR PUBLIC FORUM

VIII.—C. E. Schaff

On Railway Investments

President Wilson, recently referring to our railroad problems, said in part: "They are indispensable to our whole economic life and railway securities are at the very heart of most investments, large and small, public and private, by individuals and by institutions. . . . There is no other interest so central to the business welfare of the country, as this. No doubt, in the light of the new day, with its new understandings, the problem of the railroads will also be met and dealt with in a spirit of candor and justice."

When the first citizen of the land stresses the importance of understanding and dealing justly with the railroads, certainly the American plowman can venture upon the problem. C. E. Schaff, president of the M. K. & T. railway company, when asked to outline the relation of the public to railroad investments, said in part:

"It may be said that the railroad world is encumbered with a lot of phantoms which exist only in the popular fancy. For instance, because there have been a few so-called 'railroad magnates' whose names have figured prominently in finance, many people have come to believe that the railroads of the country are largely owned by a few rich men. As a matter of fact nothing could be farther from the truth. Out of the colossal sum of twenty billion dollars of American railroad securities, less than five per cent is now, or ever has been, in the hands of these men who have figured prominently in the newspaper headlines—while the other 95 per cent is in the hands of over two million investors, large and small, who in many instances have put the modest savings of a lifetime into these securities in order that they might lay away a competency for old age. When, therefore, the value of these securities is depressed or perchance destroyed, the hardship is a hundredfold greater upon thousands of every-day citizens, than upon the handful of millionaires, good or bad, who have figured prominently in railroad circles.

Hundreds of millions of dollars of the assets of our great life and fire insurance companies, savings banks, trust companies, educational and fiduciary institutions are invested in railroad bonds—and the moment, therefore, that the soundness of these bonds is called into question the financial solidity of these myriad institutions—directly affecting the welfare of millions of policyholders and bank depositors—is gravely menaced. During the last several years, many millions of dollars representing depreciated values, have been charged off the books of concerns like those enumerated above. American railroads have become a vital part of the very woof and fabric of the nation. Their continued efficiency is absolutely essential to the smallest community in the land.

In blindly striking at the railroads our blows fall not merely upon thousands who have committed no wrong, but, in the last analysis, upon ourselves. We should remember how interdependent we have come to be in this mighty republic of ours—that each is in truth become more and more his brother's keeper, and that we need to act and think circumspectly, lest in our mistaken zeal we destroy those who, like ourselves, need whatever of this world's goods the toil and sweat of years has bequeathed to them."

COX RETURNED BURRIS NEW HEAD

DR. CHRISTY BECOMES PASTOR OF
BIG KIRKSVILLE CHURCH.

REV. SAMPLE GOES TO BURLINGTON JUNCTION

Superintendent Here Comes From
Kirkville District—Other Pas-
toral Changes in County.

The Rev. Gilbert S. Cox was re-
turned to the pastorate of the First
Methodist church in this city by the
appointments of Bishop W. O. Shepard
at Cameron at 1 o'clock today.

The Rev. W. F. Burris, district su-
perintendent of the Kirkville district,
will become district superintendent of
the Maryville district, succeeding Dr.
W. B. Christy. Mr. Burris is 55 years
old and has been a district superin-
tendent for thirteen years, serving one
term of six years on the Cameron dis-
trict.

Dr. Christy was sent to the station
at Kirkville. The Kirkville charge
has a membership of 500 and pays
\$2,000. Its church house is valued at
\$20,000 and the parsonage at \$3,500.
Rev. C. J. English, the pastor of the
church, becomes district superintendent
of the Brookfield district. Rev.
Burris was field secretary of Missouri
Wesleyan college in 1901.

O. L. Sample to Burlington Junction.

The Rev. Orlando L. Sample was ap-
pointed to Burlington Junction com-
ing from the Broadway church at Han-
nibal, where he has been for three
years. He is a classmate of Mr. Cox
at Baker university and Boston uni-
versity. He is 38 years old. He will
succeed Rev. T. C. Middleton, who has
resigned.

Rev. Clarke Baker becomes the pas-
tor at Barnard, succeeding Rev. J. L.
Bilby. Rev. Baker has been pastor at
Albany during last year, and at Dar-
lington the year before.

W. H. Holland, who has been at
Sheridan and New Hampton during the
last two years, goes to Clearmont. W.
F. Wiley goes to Bolckow.

E. R. Kelley becomes pastor at Pick-
ering, W. T. Lutz at Elmo and F. A.
Tinney at Graham. All the other pas-
tors in Nodaway county were returned
to their charges.

G. P. Sturgeon goes to Matland; A.
C. Brown to Stanberry; Jane Douglass
to Mound City; H. J. Moody to Sher-
idan; J. B. Bennett to Fillmore; F. C.
Fay becomes district superintendent of
the Kirkville district, succeeding
Rev. Burris.

Rev. N. E. Bottom, who has been at
Clearmont, took the superannuated
relation.

Burris a General Delegate.

H. C. Bowler, the lay delegate from
Maryville, returned last night, and
Mr. Cox is expected tonight. The mem-
bers of the church and the citizens of Mary-
ville, although feeling certain that Mr.
Cox would be returned, are pleased to
be assured of his return for another
year.

The delegates to the general confer-
ence to be held at Saratoga, N. Y., next
May are Dr. H. R. DeBra, president of
Missouri Wesleyan college at Cam-
eron; the Rev. W. F. Burris, superin-
tendent of the Kirkville district, and
the Rev. J. W. Anderson, pastor at
Oregon, were elected the conference
delegates. The lay delegates appoint-
ed were: A. W. Baker, Brookfield;
Miss Maude McMurray, Savannah, and
R. D. Cotter, Cameron.

Marriage Licenses.

Marriage licenses were granted Sat-
urday to Jesse Earl Walker of Bur-
lington Junction and Hazel May Jones
of Hundley, Neb.; Walter Smith and
Ethel Dick of Maryville; French Henry
and Grace Beson of Bedford; George
Davis and Lizzie Green of Maryville.

Mrs. S. J. Yeomans returned to her
home in Hopkins this morning after a
week's visit with her son, Fred Yeo-
mans, county clerk.

GYM WORK FOR TEACHERS

Normal, High and Grade School Women
to Attend Weekly Class in Folk
Games and Esthetic Dancing.

A class in gymnasium work, folk
games, and esthetic dancing for the
women teachers of the Normal, high
school and ward schools will begin to-
night in the gymnasium of the high
school with about twenty enrolled.

The class will be under the direction
of Miss Eugenie M. Norton, who comes
from Chicago to organize the class.
She expects to start a class for chil-
dren later if sufficient interest is taken.
A program of the two classes may
be given in the spring. Miss Norton
received her training in that work at
the Hinman school in Chicago and
under Cecil Sharp of London.

SCHOOL PROGRAM NOV. 12

Ward Children to Raise Funds for
Supplies.—City Teachers Will Not
Go To Kansas City.

HOLIDAYS OCTOBER 25-29.

The teachers of the ward schools are
planning an entertainment for the pu-
pils of those schools to be given at the
Central building November 12.

No definite program has been ar-
ranged yet. The purpose of the en-
tertainment is to buy certain supplies
which are desired but which the board
does not feel at liberty to buy with
public funds.

The instructors in both grade and
high schools have decided not to go to
Kansas City for the annual meeting
of the State Teachers' association in
November but to attend the meetings
of the county association which will
be held here October 28 and 29.

Those days will be declared a school
holiday all over Maryville and the county.

KEEP CIDER SWEET.

By Canning It Can Be Preserved at
Any "Bead" Wanted.

Cider may be kept either perfectly
sweet or with whatever "bead" the
taste of the user suggests, according
to Miss Carrie Panoast of the Mis-
souri College of Agriculture. It may
be canned immediately or allowed to
stand for a few days, but in either case
the method used includes filling fruit
jars with the cider and adding a ta-
blespoonful of sugar to each quart, if
desired. Place the rubber and top in
position and tighten partially, in case
of glass jars; or if tin is used, cap and
tip the cans.

An ordinary wash tub or similar
vessel may be used in sterilizing.
Laths or thin boards should be laid
across the bottom to avoid heating the
glass too rapidly and cracking it. Put
in water enough to fill the vessel an
inch or two above the jars, heat to
boiling, put the jars in, and let boiling
continue for ten minutes. Then re-
move, tighten the covers, and invert in
order to test the lids while cooling.

Other processes that may be used
involve sterilizing for eight minutes with
a water seal outfit, for four minutes
under five pounds pressure with a
steam pressure outfit, or for two min-
utes with an aluminum pressure
cooker.

To Visit at Lincoln.

Miss May McShane of Kansas City,
who has been visiting her grand-
mother, Mrs. John Vaughn, left Sat-
urday night for a visit with relatives at
Lincoln, Neb. She was accompanied
by her aunt, Mrs. T. J. Tobin, living
near Burlington Junction.

Bigger and Bigger.

Raisers of big pears will have to
come again. Wm. Diss now comes for-
ward with a pear raised out at his
home that weighs one and a half
pounds and measures thirteen and
three-fourths inches around. Who can
beat that?

Nodaway county was represented on
the St. Joseph market by the follow-
ing patrons: Boyer & Co., Walker &
Baker, James Blagg, A. M. Sutton, Will
N. Wray, Guilford, A. M. Sutton, Bar-
nard, and H. Hopkins, Arkoe.

FAMOUS IN 2 LINES

ALICE NIELSEN FIRST WON FAME
IN LIGHT OPERA.

GRAND OPERA STAR, TOO

Born in Nashville, She Sings Southern
Melodies With Special Charm—
Here October 26.

We haven't much longer to wait. The
coming of Alice Nielsen and the open-
ing of the lyceum season is only two
weeks away. The tickets will be put
on sale Wednesday and will be in-
creased in price after the first num-
ber.

This great American prima donna
is specially welcomed because she is
an American girl. She was born in
Nashville and received her early mu-
sical training there. She was a lead-
ing singer by the time she had reached
her teens. Her first success was in
light opera.

In a short time Miss Nielsen was the
head of her own company, but relin-
quished the fame and fortune of light
opera within a few years and went to
Europe to study the classics.

She is said to be the only musician
who has made a success in grand
opera after first having achieved a
reputation in light opera.

Her operatic debut was made in
Italy with immediate success. En-
gagements at all the important oper-
a houses of Europe followed. In 1904
she sang at Covent Garden, London,
with Melba, Destinn, Caruso and
others, appearing in "Don Giovanni,"
the great presentation in which Des-
tinn made her London debut. Espe-
cially has she won fame as "Mimi" in
La Boheme, having sung that role to
the "Rodolfo" of Caruso many times.

Sings Many Southern Melodies.

Her southern birth gives Miss Niel-
sen a familiarity with the old favorite
songs of that region which never fail
to delight her audiences. She closed a
five months' Chautauqua tour Septem-
ber 6, which was a continual triumph.
The announcement of this tour was
widely heralded throughout musical
circles, and received with the greatest
interest. It is the first instance in
which so celebrated a musical artist
has appeared on a great chain of
Chautauquas. Leading musical jour-
nals commented upon the tour as an in-
novation which would open a new and
broader field to the greatest musical
talent.

The private car in which Miss Niel-
sen traveled over this circuit was used
by ex-Presidents Taft and Roosevelt
when they made their swing-around-
the-circle campaign tour of the coun-
try. Madero, the famous Mexican, also
traveled from coast to coast in it. Lil-
lian Russell has made extensive tours
in this car and Sarah Bernhardt her
farewell tour of America.

Miss Nielsen's tour, however, repre-
sents the longest time this car has
been used by any one celebrity since it
was built.

GUARDIAN WAS APPOINTED.

Mary Ellen Hackett Found to Be In-
capable of Managing Her Affairs
by Jury in Probate Court.

Mary Ellen Hackett of Burlington
Junction was found to be a person of
unsound mind and incapable of man-
aging her affairs by a jury in probate
court this morning. The jury was
composed of Fred Rogers, M. Nisbaum,
John J. Lavelle, Alfred Royston, J. W.
Sawyers, G. W. Hartley, J. S. Casteel,
J. B. Horton, J. G. Mutz, Ezra Phillips,
J. M. Swinford, Edward E. Hackett
was appointed guardian of her person
and estate.

Two Vagrants in Police Court.

Hugo O'Connor was fined \$5 and
costs for drunkenness in police court
by Judge U. S. Wright this morning.
Two vagrants were also given a force-
ful invitation to spend eleven days
each on the city rock pile for "wand-
ering from place to place without any
visible means of support."

Attends Operators' Meeting.

Omar Wallace, operator at the Bur-
lington station, went to St. Joseph
Saturday night, where he attended a
meeting of Burlington operators.

Fannie Hackett was appointed cura-
tor of the estate of Mildred A. and
Frances W. Hackett, both minors, in
probate court this morning.

Spend Week End.

Mr. and Mrs. Lester Sipes returned
last night from a week-end visit with
relatives at Forbes.

JUDGE ELLISON TOOK SICK

While On the Bench in Circuit Court
This Afternoon—Cases Were Con-
tinued Until the Next Term.

Judge W. C. Ellison took sick this
afternoon while on the bench hearing
the case of Howard J. Beedle vs. Chi-
cago Great Western Railroad company,
and as the parties could not agree on a
special judge, the suit was continued,
as was also all other contestant cases,
to the next term and the jury was dis-
charged. A jury had been selected in
this case and the attorneys had made
their statements to the jury when
Judge Ellison announced that he was
unable to hear the case. Mr. Ellison
has been indisposed for the past few
days.

A day of circuit court will probably
be held within the next few weeks to
dispose of all motions, but all jury
cases will not come up until the next
term.

MAY FORCE GREECE

BELIEVED IN ROME THAT ALLIES
WILL DEMAND ACTION.

AFTER ROUMANIA ALSO

Double Purpose Seen in Landing of Al-
lies at Saloniki—None Leav-
ing Bulgaria.

Special to The Democrat-Forum.

Rome, Oct. 11.—It is reported here
that the allies will take strong steps to
force Greece and Roumania to enter
the war on their side. The impression
prevails that the landing of large
forces on Greek soil is to compel this
action ultimately, as well as to aid
Serbia.

The representatives of the entente
powers at Athens, while exercising no
pressure on the Greek government, are
urging it to reply to the question put
last Thursday in regard to its future
course respecting the Serbo-Grecian
alliance. The cabinet deliberated this
question at length yesterday and today,
but has not succeeded in reaching any
agreement.

No One Leaving Bulgaria.

Paris, Oct. 11.—The Bulgarian gov-
ernment has forbidden the subjects of
the allied powers to leave the country,
giving as its reason that the railroads
are needed for mobilization.

This move is taken to indicate the
declaration of war upon the allies by
Bulgaria soon. The intervention of
Italy into the Balkan situation is be-
lieved imminent.

The allies have landed 30,000 more
troops at Saloniki and the movement
continues. The belief that Germany
wants to get through to Turkey be-
cause of her need of copper and cotton
is strong among the allied powers. For
that reason large forces have been
sent to Serbia.

Nineteen Turkish Ships Sunk.

Petrograd, Oct. 11.—The Russian ad-
miralty announced the sinking of nine-
teen Turkish ships this morning. They
were attacked by two torpedo boats off
the coast of Anatolia.

The boats which were sunk Thurs-
day were loaded with food and mun-
itions.

NOT COUNTING THE COST

Germans Are Piling Dead in Front of
French Trenches in Counter
Attacks.

ARTILLERY DUEL IS ON.

Special to The Democrat-Forum.

Paris, Oct. 11.—The Germans are
making furious efforts to regain their
trenches from the French army in
Champagne, and are not counting the
cost. All the counter attacks were
repulsed.

Nearly 8,000 bodies of German sol-
diers were found in front of the French
trenches in the Louvain region and
north of Loos. The artillery duels and
bombardments at other points are in-
tense.

CORN YIELD LARGER

ESTIMATE PLACES INCREASE
OVER 1914 AT FIFTY MILLIONS.

232,000,000 BUSHEL

Crop Report for October by Secretary
of State Board of Agriculture
Is Cheering.

The Missouri corn crop for 1915
promises to surpass that of 1914 by
fifty million bushels. This cheering
statement is from the October crop
report issued Saturday from the office
of the secretary of the state board of
agriculture. The report in full fol-
lows:

With good weather for fall work,
the Missouri farmer is in fine fettle.
September conditions were not the
best, the rainfall being much above
normal, but there were no killing
frosts. Apparently, the first heavy
frost of the fall is here this morn-
ing—October 9. Preceded by several
days of sunshine, this frost has, how-
ever, done but little damage, although
coming a few days earlier than for the
average season.

Corn.

Corn has made a substantial advance
in condition since our last report. On
September 1 the condition was 75.4. It
is now given as 84—a gain of more
than 8 points. One year ago corn con-
dition was 65. Present condition, by
crop division sections, is reported as
follows: Northeast, 79; northwest, 84;
central, 89; southwest, 83; southeast,
85. Quality of corn is placed at 89,
being lowest in the northeast and high-
est in the central section. Correspond-
ents estimated 87 per cent of the crop
safe from frost on October 1. It is
probable that only the late corn has
suffered and that the loss will not be
heavy. A preliminary estimate as to
yields, as reported by correspondents,
shows 22 bushels per acre as a prob-
able state average. By sections, this
preliminary estimate shows yields per
acre as follows: Northeast section,
30 bushels; northwest, 34.2; central,
37.5; southwest, 27.1; southeast, 31.
Based upon these figures and estimat-
ing a 3 per cent decrease in the
original planting of 7,495,000 acres, a
yield of about 232,000,000 bushels for
the state is indicated. It should, how-
ever, be borne in mind that the corn
crop is "spotted," uneven and hard
to estimate in advance and that the
final figures may show a decided dif-
ference. The 1914 corn crop consisted
of 175,159,000 bushels. It is estimated
that 67 per cent of the farmers are
now feeding new corn. It is believed
that the opening price will be about 60
cents per bushel.

Wheat.

Wheat sowing is unusually late, owing
to a wet September and to fear of
Hessian fly. Correspondents estimate
that but 19 per cent of the crop had
been seeded by October 1. It is fur-
ther figured that 26 per cent of the
wheat ground is yet to be plowed. In
some of the northern counties thresh-
ing from the shock is just being com-
pleted. Much stack threshing remains
to be done. Quality of wheat is dis-
appointing and there is nothing to in-
dicate that the final figures on the
yield will be better than were the
preliminary figures. Soil condition is
81. Under unfavorable circumstances
and with a disappointing market, the
acreage for the new crop will be re-
duced. Correspondents estimate the
acreage at 79 per cent. By sections it
is: Northeast, 78; northwest, 62; cen-
tral, 81; southwest, 80; southeast, 95.

Miscellaneous.

Clover and timothy seed crops will
be light, both in acreage and yield.
Pastures continue excellent, the con-
dition for the state being 100. Live
stock of all kinds is going into the
winter in the best of condition. In
southern Missouri the nut and acorn
crops are heavy, thus insuring the
best of mast. Condition of tobacco is
92; cotton, 70; cowpeas, 81; alfalfa,
80. With the exception of a few va-
rieties, the apple crop is good, and in
orchards properly cared for the qual-
ity is much above the average. Acre-
age of rye is only about 89 per cent
of last year's seeding. This is due to
a wet September, and to an abundance
of grass and forage for feed.

Saturday Was a Big Day.

Although the crowds did not seem
as large Saturday as the one the week
before, merchants say that everybody
was buying "big." H. L. Haines re-
ports that he sold ten dozen of a spe-
cial kind of waist he had advertised
Friday. The light plant carried the
heaviest load it has had in three years
Saturday night.

SHOT BY RECTOR HOLLEY

Lansing Pearsall Killed This Morning
—Police Investigating, Not Being
Satisfied With Explanation.

Special to The Democrat-Forum.
New Orleans, Oct. 11.—Entering his
study early this morning, Rev. Byron
Holley, rector of St. George Episcopal
church, the most fashionable in the
city, shot and killed Lansing Pearsall,
a special investigator of the Gould
railways, whom he found in the room.
Rev. Holley told the police he ordered
Pearsall to leave and shot him when
Pearsall tried to draw a weapon, and
that the victim was unknown to him.
Pearsall is well known here and the
police are investigating, not being sat-
isfied with the explanation.

MAY WED IN TWO WEEKS

Friends of President and Mrs. Galt
Urging Early Marriage to
Avoid Publicity.

HOONEYMOON AT PASS CHRISTIAN.

Special to The Democrat-Forum.

Washington, Oct. 11.—President Wil-
son and Mrs. N. R. Galt, his fiancée,
consider spending their honeymoon at
Pass Christian, Miss. The president
spent a Christmas vacation there two
years ago.

If this plan is followed, the bridal
party will be the guests of Misses
Mary and Lucy Smith, cousins of the
president. They are visiting at the
White House now and are urging a re-
turn visit.

Mrs. Galt's trousseau is being rushed
and Washington would not be sur-
prised if the wedding occurred within
two weeks. Friends are urging this
because of the disagreeable publicity
which attends every move of either
the president or Mrs. Galt.

Quite a number of purchases were
made by President Wilson this morn-
ing looking toward the marriage,
which added weight to the rumor of a
wedding soon. The party spent yester-
day in Baltimore with Joseph R.
Wilson, a brother of the president.

PERHAPS HE'LL COME LATER.

President Wilson Tells San Diego
School Children He Can't Attend.
Special to The Democrat-Forum.

Washington, Oct. 11.—President Wil-
son, in response today to an invitation
of the school children of San Diego to
visit their exposition, said that it was
impossible for him to leave at the
present time.

LYNCHING IN MISSISSIPPI.

Negro and Chinaman Taken From Jail
After Baker's Murder.

Special to The Democrat-Forum.
Clarksdale, Miss., Oct. 11.—A negro
and a Chinaman, suspected of the
murder of a banker who found bur-
glars in his home, were taken from
the jail here last night by a mob and
hung.

Here From Wisconsin.

Mrs. E. A. Root of Beloit, Wis., is
visiting in Maryville with her nieces,
Mrs. Henry Wright and Mrs. J. F. Hull,
and families.

The Epworth League of the First
M. E. church will hold a business
meeting at the home of Miss Edna
O'Neal, 118 South Market street, to-
night.

ALEX COULD NOT REPEAT; LOST 2-1

YIELDED SIX HITS AND RED SOX
WON IN NINTH.

PHILLIES GOT THREE ONLY OFF LEONARD

Boston Made an Error, Letting Phila-
delphia Score First—Crowd Largest
Ever at a Ball Game.

The Summary of Third Game.

The score: R.H.E.
Philadelphia 001000000—1 3 0
Boston 000100001—2 6 1
Batteries—Alexander and Burns;
Leonard and Carrigan.

Special to The Democrat-Forum.

Braves Park, Boston, Oct. 11.—The
mighty Alexander could not repeat to-
day and the third of the world series
games went to Boston 2-1. "Dutch"
Leonard, opposing him, yielded but
three hits while the Red Sox vers col-
lecting six safeties.

Boston made the only error of the
game, letting the Quakers start the
scoring in the third. The game was
tied up in the following inning. The
winning run went over in the last half
of the ninth.

The largest crowd which ever
watched a base ball game saw the best
pitcher of the year and one of the
greatest of all time fall before the
wrecking crew of the American league
team from Beantown.

Boston, that city once known the
Hub of Culture, is in the throes of
baseball frenzy. All else seemed to be
forgotten this morning when the day
opened with a bright sun and a crisp
autumn day.

The checking of the wheels of indus-
try during most of the afternoon was
threatened when 46,000 fans crowded
the new Braves' park where the games
will be played. Fancy prices were
paid to ticket speculators and scalpers
this morning.

The "Beaneaters" were confident to-
day that the Red Sox could defeat
Alexander this time. The betting last
night was 6 to 5 for the Phillies but
the large amounts of Boston money
changed the odds by morning to 5 to
4 on Carrigan's crew.

Most of the odds were given by Bos-
ton, regardless of who pitches. Phila-
delphia fans were just as certain,
however, that Moran would pilot Alex-
ander and the Quakers through to an-
other victory.

Ten thousand of these stood in line
all night and 6,000 more had joined
them before the sale of bleacher tickets
started. The clear night enabled many
to sleep in their places and all were
sitting on camp stools or boxes.

The biggest crowd ever on record
is in Boston and the hotels are reaping
a rich harvest. Manager Carrigan
says "The Red Sox struck their stride
Saturday and will win the series."

Moran said that his bunch was
ready to get busy again.

* THE WEATHER *

Unsettled weather tonight and
Tuesday; probably rain; colder to-
night; colder Tuesday.

BABY NIGHT, FERN TONIGHT

100 babies will be shown, life size, on the screen and because of
of the added expense of having an expert photographer here all
week, the admission will be Children, 10 cents, Adults, 15
cents. Big five reel program with the Baby Show. See it!
TUESDAY, Dorothy Kelley in "Via Wireless," 5 and 10 cents.
WEDNESDAY, Earl Williams and Anita Stewart, 5 and 10 cts.
THURSDAY, Charles Chaplin in "The Bank," 5 and 10 cents.
FRIDAY, "C. O. D.," all star Vitagraph comedy. 5 and 10 cents.
SATURDAY, Julia Deane in "Judge Not," 6 acts, 5 and 10 cents.

TONIGHT KEYSTONE NIGHT

THE LITTLE TEACHER, 2 reel Keystone, featuring
Fatty Arbuckle, Mabel Normand and Max Sennett.

RASCAL'S WOLFISH WAY, 2 reel Keystone.

THE KINSHIP OF COURAGE, the story of a young
reactionary. First time shown in Maryville.

Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

It is time now to discard your summer furs.

Cold weather is coming on now. Better lay in a stock of fur anklets.

That American consul at Munich is probably aware by this time that Wilson will take no "gaff" from Gaffney.

President Wilson said of the world series ball game, "It was capital!" A new version of "bully!" we take it.

One of the queer quirks of modern life is seeing a veterinary using an automobile regularly.

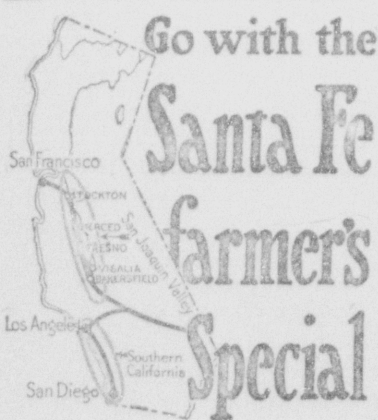

Columbia, Mo., is troubled with a coal famine. Perhaps it will be a blessing if they have to burn up all the paddles of the sophomores.

It seems that the president has been carrying on other diplomatic correspondence that was not entrusted to Mr. Bryan or the state department.

A lot of people will ride a hundred miles to hear a foreigner screech in Italian who wouldn't go into the next block to hear real music in their native tongue.

The Republicans have decided to call to the colors the class of 1846. According to their decision, Oldman Tariff will have to hobble through another campaign.

A letter from an American official

Spend two weeks in seeing California in connection with your visit to the two Expositions.

This tour is especially for rural folks and others interested. I want you to see the San Joaquin Valley and talk to the people about the greater production per acre, the balmy, healthful climate, the year-round growing season. You will be the guests of many communities in Southern California and San Joaquin Valley. You will be taken on auto trips to see their farms, orchards and homes. We have no land to sell. We just want you to see and know California.

Let me tell you at what small cost this trip will be made. We will live on our own special cars most of the time, so saving hotel bills. Go with us on the Santa Fe, stop a day at Grand Canyon and return Santa Fe or any direct route.

This party will leave Chicago October 14, reach San Francisco about October 23, and return from there at your pleasure up to December 31. You'll see rural California—as you could see it in no other way. You'll see the two great world expositions. Also you'll see the Grand Canyon of Arizona.

Make reservations promptly, to insure getting space wanted—the time is short. Write me to-day for itinerary, particulars and rates.

PUBLIC ROADS

IMPORTANCE OF ROAD REPAIR

Impression That There Are Certain Types of Highways That Are Permanent Is Erroneous.

There is no phase of the road problem more important than that of maintenance. The general impression that there are certain types of roads that are permanent is erroneous. No permanent road has ever been constructed or ever will be, according to the road specialists of the United States department of agriculture. The only things about a road that may be considered permanent are the grading, culverts and bridges. Roads constructed by the most skillful highway engineers will soon be destroyed by the traffic, frost, rain and wind, unless they are properly maintained. But the life of these roads may be prolonged by systematic maintenance. A poor road will not only be improved by proper maintenance, but may become better in time than a good road without it.

The first and last commandment in earth road maintenance is to keep the surface well drained. To insure good drainage the ditches should be kept open, all obstructions removed and a smooth crown maintained. Except for very stony soil the road machine or scraper may be used very effectively for this work. The machine should be used once or twice a year and the work should be done when the soil is damp so that it will pack and bake into a hard crust. Wide and shallow side ditches should be maintained with sufficient fall and capacity to dispose of surface water. These ditches can in most places be constructed and repaired with a road machine.

All vegetable matter such as sods and weeds should be kept out of the road as they make a spongy surface which retains moisture. Clods are also objectionable for they soon turn to dust or mud and for that reason roads should never be worked when dry or hard. Boulders or loose stones are equally objectionable if a smooth surface is to be secured.

A split-log drag or some similar device is very useful in maintaining the surface after suitable ditches and cross sections have once been secured. This drag can also be used to advantage on a gravel road as well as on an earth road. The principle involved in dragging is that clays and most heavy soils will puddle when wet and set very hard when dry. The little attention that the earth road needs must be given promptly and at the proper time if the best results are to be obtained.

In dragging roads only a small amount of earth is moved, just enough to fill the ruts and depressions with a thin layer of plastic clay or earth which packs very hard so that the next rain instead of finding ruts, depressions and clods in which to collect runs off leaving the surface but little affected.

The drag should be light and should be drawn over the road at an angle of about forty-five degrees. The driver should ride on the drag and should not drive faster than a walk. One round trip, each trip straddling a wheel track, is usually sufficient to fill the ruts and smooth the surface. If necessary the road should be dragged after every bad spell of weather, when the soil is in proper condition to puddle well and still not adhere to the drag. If the road is very bad it may be dragged when very wet and again when it begins to dry out. A few trips over the road will give the operator an idea as to the best time to drag. Drag at all seasons, but do not drag a dry road.

The slope or crown of an earth road should be about one inch to the foot. If the crown becomes too high it may be reduced by dragging toward the ditch instead of from it. If the drag cuts too much, shorten the hitch and change your position on the drag. If it is necessary to protect the face of the drag with a strip of iron, it should be placed flush with the edge of the drag and not projecting. A cutting edge should be avoided, as the main object in dragging is to smear the damp soil into position.

Usually Too Narrow.

The average roadway is crowned too narrow. Sixteen feet, in these days of autos and auto trucks, is none too much, and where travel is heavy 20 would be better.

Use of Slip-Log Drag.

Next to permanent road building comes a systematic and intelligent use of the slip-log drag.

Roads Should Be Crooked.

Good roads in the future should be built on the zig-zag plan for the avoidance of hills and steep grades. The federal office of good roads announced recently in declaring that the lives of horses and automobiles could be lengthened thereby and the cost of hauling reduced materially. The experts contend that "the longest way around often may be the shortest and most economical way home," and decry the natural tendency to build straight roads whenever they must breast heavy grades.

By KATE SCHENCK
PHONES—OFFICE 42. HOME 683

Calendar.

A meeting will be held tonight at the First Christian church by the class of Endeavor efficiency. The meeting will open at 7:30 o'clock and is for any person interested in the study of methods and principles of Christian Endeavor work.

The regular meeting of the Order of the Eastern Star will be held at 7:30 o'clock Tuesday night in Masonic hall.

The Westminster Guild will meet at 7:30 o'clock Tuesday night at the home of Miss Nellie Hudson, 221 North Mulberry street.

The meeting of the Shakespeare department of the Twentieth Century club which was to have been held Tuesday afternoon at the home of Mrs. Lewis White, has been deferred a week on account of the district federation meeting.

The Amoma class will hold a social evening in the parlors of the First Baptist church Thursday night.

The Ladies Aid society of the First Methodist church will meet Thursday afternoon at the home of Mrs. S. J. DeArmond of East Third street.

The Auditorium class of the First Christian church will hold a social meeting Thursday night at the home of Mr. and Mrs. Dick Strong.

The October meeting of the Women's Missionary society of the First Presbyterian church will be held Friday afternoon instead of Thursday afternoon and it will be at the home of Mrs. Winfield Scott.

The Ladies Aid Society of the Buchanan Street Methodist church will meet Friday afternoon at the home of Mrs. R. G. Allan of West Third street.

The Mission Circle of the First Christian church will meet Saturday afternoon at the home of Mrs. George Pat Wright to give the October program.

Change in Plans.

Because of a change in plans for the district federation meeting of women's clubs, the members of the state board who arrive in the city tonight will be entertained at the Lincoln hotel, and in consequence the meal which were to be served by the women of the First Christian church will not be commenced until Wednesday night dinner. The meals, until after luncheon Wednesday, will be taken at the Lincoln, and Wednesday night dinner, Thursday luncheon and dinner will be served at the church. Those who will take any or all of these three meals with the Christian women are asked to call Mrs. M. G. Tate, president of the Twentieth Century club, by noon tomorrow, as arrangements must be made in order to accommodate the crowd properly. The board meetings, which are private, and executive sessions will be held in the church, as

Asthma-Catarrh and Bronchitis

Can Be Greatly Relieved by the New External Vapor Treatment.

Don't take internal medicines or habit-forming drugs for these troubles. Vick's "Vapo-Rub" Salve is applied externally and relieves by inhalation as a vapor and by absorption through the skin. For Asthma and Hay Fever, melt a little Vick's in a spoon and inhale the vapors; also rub well over the spinal column to relax the nervous tension. 25c, 50c, or \$1.00.

will the district federation sessions of Thursday. The reception, which opens the convention, will be held at the library rooms of the State Normal school. Mrs. James B. Robinson, president of the Ladies' Aid society of the Christian church, is superintending the serving of the meals.

Bosley Dinner Party.

Mr. and Mrs. W. S. Bosley entertained at a dinner given to celebrate the sixty-eighth birthday anniversary of Mr. Bosley. Plates were laid for Mr. and Mrs. Elmer Bosley and daughter, Ruby, of Stanberry; Mr. and Mrs. William Elb, Mr. and Mrs. Frank Bailey, Mr. and Mrs. Homer Worl, Mr. and Mrs. Marion Luger, Miss Bessie Worl, Clarence Bailey, Mildred, Floyd and Clara Opal Bailey, Harry Wampler, Frauline, Irene, Dorothy and Harriett Bailey, Alfred Luger, LaVerne Worl, Miss Hattie Bosley, Albert Bosley and the hosts.

To Attend Meeting.

Miss Mary Q. Evans and Miss Lucile Airy will leave tomorrow for Sioux City, Ia., to attend the branch annual meeting of the Women's Foreign Missionary society of the Methodist church. Miss Evans will represent the Maryville church society and Miss Airy will go in place of Miss Kate Willis, branch agent of supplies.

Gives House Party.

Misses Tina and Jessie McClain of Skidmore entertained a number of their friends for an over-night house party Saturday and Sunday breakfast. The guests were Misses Alice and Lela Farley, Miss Beulah Horn, Miss Alta Stultz and Miss Beulah Hoagland. At a supper given Saturday night additional guests were Ray Armstrong, George Jensen and Orville Mathews.

For Mr. and Mrs. Finch.

Mr. and Mrs. W. H. Gilbert were dinner hosts Saturday night, when they entertained the Rev. and Mrs. Robert Lyle Finch and son, Robert, Jr. Mr. and Mrs. Finch and son were also complimentary guests of a dinner given yesterday noon by Mr. and Mrs. Fred P. Robinson.

Jones-Walker.

Jesse Walker of Burlington Junction and Miss Hazel May Jones of Hundley, Neb., were married at 6 o'clock last evening by the Rev. Robert Lyle Finch, pastor of the First Christian church. The ceremony took place at the home of Mrs. Margaret Starr and was witnessed by a party of friends from this city and Burlington Junction.

P. E. O. Chapter Meets.

The P. E. O. chapter held its first study meeting for the year at the home of Miss Carrie Hopkins Saturday afternoon. The leader of the program was Miss Mabel Wells, and readings were given by Mrs. Arch K. Frank and Miss Alice Worst. A victrola program added to the entertainment of the members.

O'Neal Dinner Party.

Mr. and Mrs. J. E. O'Neal entertained with a family dinner party at noon yesterday, arranging the gathering to celebrate the birthday anniversary of Mrs. O'Neal. Plates were laid for Mr. and Mrs. O'Neal, Mr. and Mrs. Robert Ale and sons, Stanley, George Jr., and Donald; Mr. and Mrs. Lon Thompson and children, Gladys, Herman, Highland and Lois Margaret, and Miss Edna O'Neal.

Motor Party to Tarkio.

Mr. and Mrs. Charles Jensen, Mrs. Lily Martin and daughter, Emily LeVita; Mr. and Mrs. S. A. McClurg and son, Edgar; Mrs. Ella Neal and family went in the Jensen and McClurg automobiles to the home of Mr. and Mrs. William Stewart, of near Fairfax, yesterday. It was the twenty-sixth anniversary of the wedding of Mr. and Mrs. Stewart. After a dinner, in which fried chicken was the principal attraction, the Stewart car joined the party in a trip to Fairfax and Tarkio.

To Give Recital.

The first of the regular recitals to be given by the Conservatory of Music

will be held tonight in the recital hall. Those participating in the program are Misses Ruth Jones, Mildred Shindalgar, Mildred Bellows, Dorothy McDonald, Vesta Peterman, Ethel Morton and Lucile Airy. From tonight on the recitals will be given every other Monday night.

Dick-Smith.

Miss Ethel Dick, the daughter of Mr. and Mrs. J. T. Dick, living four miles east of the city, and Mr. Walter Smith were married at 1 o'clock yesterday at the home of the bride's parents, the Rev. Lewis M. Hale, pastor of the First Baptist church, reading the marriage service. The ceremony was followed by the serving of an elaborate wedding dinner, at which about forty relatives and friends were entertained. Mr. and Mrs. Smith will make their home on the Anderson Craig farm.

Celebrates Seventh Birthday.

Mary Jean, the daughter of Mr. and Mrs. E. L. Ferritor of West Fourth street, celebrated her seventh birthday anniversary Saturday, and in the afternoon entertained a number of small friends with a game party. Lella Tibbets won the prize in a peanut hunt, and Darlene Garten in a ring contest. A supper of ice cream, cake and candies was served. The grown-ups who entertained the children were Mrs. Ferritor, Miss Grace Ferritor and Miss Martha Hepley, and the little folks present were Mary Dougan, Lella Tibbets, Pauline Mahoney, Darlene and Clara Bertha Garten, Musette Hepley, Ardelle Marie King, Rosanna McCullough, Frances Hepley, Lillian Murrin, Anna Lattin, Maxine Awaft, Donna Hepley, Josephine Lattin and Mary Jean Ferritor.

Attends Family Reunion.

Mr. and Mrs. Omer Wallace and son went to St. Joseph yesterday, where they attended a reunion of Mr. Wallace's family, the Weavers, held at the parental home.

Becker Dinner Party.

Mr. and Mrs. Henry Johnson Becker were the hosts of a dinner given yesterday, when they entertained Mr. and Mrs. W. E. Goforth and children, Doris and Donald.

Mr. and Mrs. Gross Entertain.

Mr. and Mrs. William Gross gave a dinner at noon yesterday in honor of their daughter, Mrs. Wesley Cox of Barnard. Plates were laid for Mr. and Mrs. Cox, Mrs. Hill and Mr. and Mrs. Howard Whaley and family.

Motor to St. Joseph.

Mr. and Mrs. George B. Baker and Mr. and Mrs. Ed F. Wolfert motored to St. Joseph Sunday afternoon. Another motor party to St. Joseph Sunday afternoon was composed of Mr. and Mrs. Will J. Montgomery and Mr. and Mrs. Will F. Phares.

Miss Wright Hostess.

Miss Lucile Wright entertained the Queen Esther Circle of the First Methodist church at her home, on North Main street, Saturday afternoon. Instrumental numbers were given by Miss Mildred Bellows, and readings by Miss Viljone Colden and Miss Clara Wray. Miss Ruth Tinney was a special guest.

J. D. Taylor Celebrates Birthday.

J. D. Taylor, living northeast of the city, reached his sixty-third birthday yesterday, and to celebrate the event the people of the Myrtle Tree congregation surprised him by holding a basket dinner. Mr. Taylor is teacher of the Men's Bible class, and after the dinner pictures were taken of the class and also of the crowd present. Every one brought a well filled basket and the dinner was spread in picnic fashion. Those in the party were Mr. Taylor, Mr. and Mrs. Clinton Davis, Mr. and Mrs. John Appleby, Mr. and Mrs. Sam Craven, Mr. and Mrs. Arthur Wiley, Mr. and Mrs. D. A. Appleby, Mr. and Mrs. John Shrock, Mr. and Mrs. O. J. Willhoite, Mr. and Mrs. Charles Wells, Mr. and Mrs. Roland Wray, Mr. and Mrs. Charles Nichols, Mr. and Mrs. Lloyd Casteel, Mr. and Mrs. Albert Dowden, Mr. and Mrs. Art Dowden, Mr. and Mrs. Jesse Dowden, Mr. and Mrs. Forrest Dowden, Mr. and Mrs. Ira Kelley, Mr. and Mrs. Artie Craven, Mr. and Mrs. J. H. Neal, Mr. and Mrs. Wilson Wray, Mr. and Mrs. Perry Farrens, Mr. and Mrs. Will Partridge, Mr. and Mrs. Lincoln Partridge, Mr. and Mrs. Roy Kelley, Mr. and Mrs. M. S. Casteel, Mrs. Miranda Miller, Mrs. Ernest Wray, Mrs. Etta Crigger, Mrs. John Dowling, Leonard Appleby, Misses Lila and Evelyn Dowden, Flora Appleby, Alma Appleby, Velma and Melba Appleby, Cecile Wiley, Grace and Mildred Wiley, Iola and Lela Dowden, Lillian and Hattie Crigger, Leola, Bernice and Bessie Shrock, Marguerite and Louise Wells, Pearl Neal, Ada Walters, Mildred Davis, Zetah Kelley, Dorothy Dowden, Mary Margaret Wray, Kittle Taylor, Dorothy Alice Craven, Leora Willhoite, Lawrence Wray, Orville Willhoite, Ralph Dowden, Gilbert and Harold Neal, Charles Appleby, Arthur Crigger, Clinton Davis, Jr., Eugene Wells, Forrest Dowden, Harold Farrens, Robert Taylor Wray, Forrest Wells, Wilson, Leslie, Franklin, Harold, Harvey and Wesley Dowden and Stanley Davis.

Orchard Information

CULTIVATION IN AN ORCHARD

Some Sort of Straw Mulch Will Act as Protection From Heaving Caused by Frost and Thaw.

(By R. B. HOWE, Colorado Experiment Station.)

There are two main reasons for cultivating—to make plant food available and to conserve moisture. In cultivating, the soil particles are broken up and the root hairs passing in among the small particles take up plant food from the soil water. The plant food goes into solution in the soil water as the rock and particles in the soil decompose. More often we cultivate to kill the weeds, but really to conserve moisture. After each rain the soil is packed down to some extent, and this crust, which forms upon the surface with the drying of the soil, will draw water from the subsoil to the surface by capillarity. When we cultivate this surface crust is broken up and the water does not as readily escape from the sub-surface to the air, and is held for use by the plant. The fruit crop requires a great deal of water to mature fruits of good size. In dry seasons the size of the summer fruits is liable to be small on account of the insufficient water supply. Where the fruit garden is a small plot of ground sufficient to supply the table with fruit it is difficult to take time to cultivate the strawberries and blackberries, and for this reason the use of some sort of a straw mulch will be best to help retain the moisture in the soil for the plants. The mulch is plowed under after the crop has been taken off and a new mulch applied in the fall after the ground is well frozen, when it will also act as a protection from the heaving caused by the frosts and thaws.

HOW TO PREPARE BORDEAUX

A Few Suggestions in Regard to Its Proper Mixing—Formula Most in Use at Present Time.

As bordeaux is probably the most used fungicide at present, a few suggestions in regard to its proper mixing will not be out of place. The formula most in use at present is four pounds of copper sulphate (blue vitriol) four pounds of good lime and 50 gallons of water. The granulated form of copper sulphate should be used, and only well-burned lime which is not air slaked should be used. Be sure to use lime enough. If lime is poor or if there is any fear of bordeaux injury to the fruit add another pound of lime.

The lime and copper sulphate should be prepared in different receptacles, preferably half barrels. The copper sulphate should be held in a sack at the top of the half barrel and allowed to dissolve. Never put the copper sulphate in the bottom of the barrel. When slaking the lime add the water a little at a time so as not to kill the heat from the lime. When the slaking is completed and when the copper sulphate is all dissolved and both mixtures have been brought up to 25 gallons, they may be put together after a thorough mixing. Be sure to pour the copper sulphate into the lime, which has previously been put into a mixing barrel or the spray pump. Do not pour the lime into the copper sulphate, as the mixture obtained is not good bordeaux and will oftentimes do injury instead of being beneficial.

TIMELY WORK IN ORCHARDS

Farmers Should Guard Against Ravages of Mice and Rabbits—Prune During Winter Weather.

The protection of orchards against damage by mice and rabbits is work which may well be pursued in the fall, particularly in the case of young orchards, and when that is completed the season's pruning may be begun. Fall is really the beginning of the pruning season, and there are many advantages in doing as much as possible of this work during favorable weather of early winter. About the only objection which may arise to

Enemies of Young Trees.

doing this work before spring comes from localities where the winters are cold and dry, and there it is frequently found that wounds which are made in the fall dry out during the winter to such an extent that the bark is killed for a considerable area around the wound, making the wound many times larger than it would have been otherwise.

Tip the Raspberry Plants.

Now is the time for tipping black raspberry plants if you want to raise new plants. As the new growth bends over the ground, each tip should be buried in the soil a few inches and held in place by piling up a little earth upon it. Next spring the tips will have roots, when the plants can be cut off from the parent bushes and planted wherever they are wanted.

TREATING HOGS WITH SERUM

Produces Immunity of Sufficient Duration to Allow Ample Time for Cleaning Up the Yards.

(By J. B. GINGERY, Missouri Experiment Station.)

The veterinary department of the Missouri agricultural experiment station has been recommending and using the serum alone treatment. The question is often heard, "Why the serum alone treatment?" The serum alone treatment properly administered has for its object the control and eventually the absolute eradication of hog cholera. It makes it possible in a large measure to do away with vaccination with its attending cost and trouble. The serum alone treatment is a safe method to use and is simple. It can be handled with good results by the careful inexperienced man. There are none of the bad after results such as sometimes follow other treatments.

Serum alone can neither start new outbreaks of cholera nor bring the infection on your noninfected farm. When administered under proper conditions it produces an immunity of sufficient duration to allow ample time for cleaning up and disinfecting the yards and in this way destroying the infection before the hogs outgrow the immunity. Under ordinary conditions this is of far greater importance than simply protecting hogs from the cholera for a varying period of time and not making any attempt to avoid harboring the germs. The germs, whether in the litter about the pens or in the virus of the double treatment, will cause the disease to develop. If cholera is to be controlled it is necessary to destroy the germs. The use of the serum alone is to protect the hogs until the germs can be destroyed by cleaning up, burning and disinfecting.

PROTECT STOCK FROM FLIES

Fine Spray of Kerosene Oil is Effective in Keeping Insects Off Animals—Other Remedies.

Sometimes a fine spray of pure kerosene is very effective in knocking off flies. This spray should not be heavy enough to penetrate the hair, or it will blister the skin. Another spray is made by the use of ordinary coal tar dip or creosote two parts, mineral oil four parts, water ten parts. This is usually put on with a brush or a sponge.

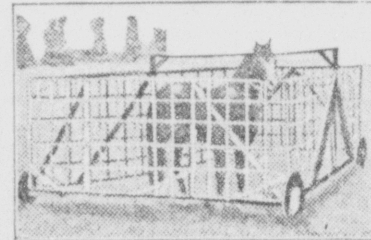

Of the mixtures classed as "repellents," the following is supposed to be very good: One gallon fish or whale oil; one pint coal oil; two ounces crude carbolic acid. A little melted resin is supposed to make these mixtures stick to the hair a little better. Another remedy suggested is ten parts lard or axle grease to one part of pine tar. Such mixtures are usually disagreeable to apply and the bad odor is generally a greater nuisance than the presence of the flies.

The principal advantage of light sprays is that they drive the flies away during milking time. These have to be applied every day and do not keep the flies off very long. The repellent mixtures are usually applied twice a week, and will keep flies off from two to four days.

PASTURE FENCE ON WHEELS

Interesting Solution Offered by Illinois Farmer to Problem of Caring for Spirited Horse.

A portable pasture fence, made out of the framework of set pieces of fireworks, is the interesting solution offered by an Illinois farmer to the problem of caring for a spirited horse which runs itself out in a large meadow.

Excellent for Nervous Horse.

The little pasture is 16 by 20 wheels. One man can move it easily. The horse seems quite contented, and when one piece is grazed sufficiently, the fence is moved to a fresh piece.—Popular Mechanics.

BALANCED RATION FOR EGGS

Satisfactory Feed Is Made of Corn, Wheat, Oats, Alfalfa, Beef Scraps and Linseed Meal.

The following ration is fairly well balanced for egg production: One hundred and fifty pounds each of cracked corn and cracked wheat, 20 pounds each of wheat bran, middlings, cornmeal, ground oats and gluten meal, 30 pounds beef scraps, five pounds each of alfalfa meal and old process linseed-oil meal.

For hens having free range of the farm, a very simple ration is made of equal parts cracked corn and cracked wheat, and a dish of beef scraps to which they can help themselves.

Good Land Wasted.

Get after the old briars and weeds along the line fence. Why not use the old mowder that has been superseded by a new one. It would be interesting to know just what proportion of good land in this country is allowed to go to waste along line fences.

ALSATIANS DISAPPOINTED.

Flying From Germany Because of French Sympathy.

Berne, Oct. 11.—The "Bund" reports that several thousand Alsatis, whose sympathies for France prompted them to flee across the French border in the early stages of the war, are vainly trying to return to their homes. When they left Germany they expected to be received with open arms by the French nation, but they suffered bitter disappointment. As most of them speak the French language only brokenly, they were treated with distrust and few of them obtained employment. The authorities in almost all cases refused them aid, and after they had sold the few valuables they possessed they were threatened by starvation.

During the last four or five weeks hundreds of these fugitives appeared on the Swiss border with the intention to return to Alsace by the way of Switzerland. They had to be rejected, as they were likely to become public charges, if the German government would not allow them to return to their native villages. Two or three thousands of them are now in the French towns along the frontier waiting for the answer of the German government to an appeal that has been made in their behalf by the president of Switzerland and the Red Cross society.

THIS GERMAN PESSIMISTIC.

Commander of Armies in Turkey Says Sea Power Ultimately Prevails.

Geneva, Oct. 11.—Marshal Von der Goltz, the German commander of the Turkish army, makes the following statement in the course of a long article in the current number of the German publication, "Direction of the War:—

"Of two adversaries whose forces are equal, he that is master of the sea will finally gain the victory. 'The exhaustion of financial means, obtained by the destruction of commerce and the suppression of maritime operations, will undermine the military power of the adversary, and will end by annihilating his energies.'"

CROSS TO OLD PEASANT WOMAN.

Remained Under Shell Fire to Nurse Wounded Soldiers.

Paris, Oct. 11.—The Havre correspondent of the Petit Parisien, recalling the old Flemish peasant woman who remained under shell fire near Oudecapelle tending the soldiers, says that the Belgian minister for the interior judged that none merited more than she the decoration for acts of striking courage, devotion and humanity. Accordingly, King Albert has conferred the Civic Cross of 1914-15 on her.

HENS REQUIRE ANIMAL FOOD

(Nothing Yet Found That Answers Purpose as Well as Beef Scraps—Produce Stronger Chicks.)

The modern hen, the bird we are forcing to lay more eggs each year, has developed into sort of an egg machine. Part of the food she eats goes to make blood and bone and muscle for her own body. The rest of the food, if it is of the right sort, goes to make eggs.

But the best hen in the world can't make eggs from the air. The eggs a hen lays come directly from the food she eats.

Since it is not possible to furnish bugs and worms such as the hens find for themselves, we must look for a good substitute. Up to the present time nothing has been found that answers so well as beef scrap.

The beef scrap must be absolutely sweet and pure, or trouble is sure to follow.

This is especially true in the breeding season, when it is necessary not only to get eggs, but eggs that will hatch well. It has been found that eggs laid by hens that have been fed beef scrap not only hatch better than those laid by hens that have not been fed any animal food, but they also produce stronger chicks.

BEST POULTRY FOR MARKET

Enormous Amount of Inferior Product Largely Affects Prices—Ship Only Best Quality.

Nothing but the best quality of poultry should be shipped to market. Only those who ever visited the large markets know of the enormous amount of inferior poultry that is sold, and which largely affects the prices; yet there is always a demand for that which is good, and at a price above the regular quotations.

Assorting the carcasses before shipping also leads to better prices. Old roosters, which seldom sell at more than half price, should not be in the same boxes or barrels with better stock, and to ship poultry alive, and to have roosters in the coops with fat hens, is simply to lower the price of the hens, as the buyer will estimate the value by the presence of the inferior stock.

Selling Eggs for Hatching.

If you are selling eggs for hatching, a visit to the best breeding farm you can easily reach, will pay you well. Observe closely the methods followed there, and then improve on them all you can.

Good high grade Franklyn county, Illinois, nut coal, \$5.00 per ton. Wm. Everhart. 11-13

Night School Opens Tonight.

The night school of the Maryville Business college will open tonight at 7 o'clock. It is not known how many will be enrolled, but the management has enough promises to presage a very successful winter. They will meet Monday, Wednesday and Friday from 7 to 9 o'clock.

Miss Mabel Hunt returned yesterday from a visit with friends at St. Louis, Macon City and St. Joseph.

Good high grade Franklyn county, Illinois, nut coal, \$5.00 per ton. Wm. Everhart. 11-13

THE KITCHEN CABINET

If you have a kind word—say it. Throbbing hearts soon sink to rest; If you owe a kindness—pay it. Life's sun hurries to the west.

Days for deeds are few, my brother. Then today fulfill your vow; If you mean to help another, Do not dream if—do it now.

PALATABLE DISHES.

Carrots are so wholesome and cheap that they should be served at least once a week, if not oftener. They are especially good cooked, then chopped and seasoned with butter, salt and a dash of lemon juice. Serve hot.

Carrot Patties.—Put six boiled carrots through a meat chopper, break over them two fresh eggs and mix well. Rub six crackers fine and add to the first mixture. Season with salt, cayenne pepper, a little lemon juice and form into cakes, then fry a delicate brown. Serve very hot garnished with parsley.

Russian Sauce.—To four tablespoonfuls of freshly grated horseradish add a teaspoonful of mustard, one-half a teaspoonful of sugar, a little salt, a dash of cayenne and two tablespoonfuls of vinegar. When served with fish, add two tablespoonfuls of melted butter.

Raisin Sandwiches.—With one cupful of seeded raisins chop an equal quantity of nut meats. Mix to a paste with fresh, sweet butter and spread on toasted crackers or thin slices of brown bread. Cut the bread very thin for the sandwiches.

Casserole of Heart.—For a medium sized heart slice rather thin one tart apple, one potato, one onion, one carrot and season with salt and pepper. Cut the heart so that it may be stuffed with the vegetables. Place it in a casserole with the remaining vegetables and cover with seasoned stock. Cover and bake for three hours. When done, remove the heart to a platter, surround with the vegetables and a gravy, thickened slightly. Garnish with parsley and serve. This meat is good sliced cold.

Date Filling for Cake.—This may be used as filling for any kind of cake and will be found delicious. Take two cupfuls of dates, remove the stones and chop in small pieces, take half a cupful of powdered sugar, two tablespoonfuls of lemon juice and a half a cupful of whipped cream. Mix all together and spread on the cake.

HINTS FOR THE POULTRYMAN

Chickens Must Be Given Good Attention for Best Results—Keep Hens in Vigorous Health.

If you want to get the best results from your chickens you must give them attention.

You must keep your hens in good health, providing coops that are clean and well ventilated, and allowing the chickens the run of orchard or pasture through the day.

You must feed your hens well for growth and development. They should go to roost with crops well filled with wholesome grains, after returning from the range, and plenty of skim milk and water should be available through the day.

You must see that your hens have shade in which to rest. If trees and shrubs are not plentiful, burlap or gunny-sack shades should be put up.

You must keep your broody hens in airy coops and feed and water them well. They will recover from their broodiness in five or ten days.

You must gather your eggs daily and market them at least twice a week.

DIFFERENT COLOR OF CHICKS

Downy Covering of Many of Purebreds Is Opposite to Hue When Fully Covered With Feathers.

Those who buy eggs of certain breeds of black fowls, having no experience with the breed, often write back in wrath to the firm from which eggs were purchased, declaring they were cheated, as the chicks hatched from the eggs were nearly all white, or more white than black in the color.

The downy covering of many of the purebred breeds is different in color from what the full-feathered covering will be. For instance, the whiter the down of the chicks of some black breeds the blacker that chick when grown; the grayer the down of a newly hatched White Rock the whiter it will be when grown.

It is the same with some breeds of white geese; they come out of the shell as gray as mice, but that color all departs.

FOUR SOUND POULTRY FACTS

Infertile Eggs Keep Best During Heat of Summer—Best Plan to Segregate the Roosters.

Fertile eggs spoil quickly in summer weather.

2. Infertile eggs keep best and market best in summer heat.

3. Fertile eggs are produced if the roosters are allowed to run with the hens.

4. Infertile eggs are produced if the roosters are kept from the hens—Ohio Agricultural College.

THE KITCHEN CABINET

Some of your hurts you have cured, And the sharpest you still have survived, But what torments of grief you endured From evils which never arrived.

AROMATIC VINEGARS.

Those who enjoy changes in flavor and well seasoned delicacies will keep on hand a supply of various vinegars.

Pepper Vinegar.—Select 18 pods of red peppers, take out the stems and cut the pods in two; place them in a kettle with two quarts of vinegar and boil it away to a quart. Strain and seal. This is a fine flavor to add to catchup for fish sauce.

Many of the herbs used in aromatic vinegars may be raised in the home garden. A mint bed, nasturtiums, parsley, thyme, marjoram and others are all attractive flavors to be preserved in some form to be used in sauces.

Dry tarragon may be purchased if the fresh plant cannot be obtained. Allow a half pint of leaves to a quart of vinegar, steep in the vinegar for two weeks, strain through flannel, bottle and seal.

Horseradish Vinegar.—Pour a quart of boiling vinegar over one and a half cupfuls of grated horseradish, add two tablespoonfuls of sugar and one of salt and let stand one week, strain, bottle and keep to serve with meat and fish, to flavor salads, salad dressings and many other dishes.

Spice Vinegar.—Place the spices in a small bag and take them out when the vinegar seems sufficiently spicy, as otherwise the spice darkens the vinegar. For all these vinegars use cider vinegar for the foundation. Take two ounces each of parsley, thyme, sweet marjoram, mustard, celery seed, and one ounce each of allspice, cloves, pepper and mace; place in a jar and cover with a quart of vinegar; let it stand three days, then strain through a cheesecloth and bottle.

Celery Vinegar.—Pound three tablespoonfuls of celery seed in a mortar, add to a pint of vinegar and shake every day for two weeks, then strain and keep for use. Mint is prepared in the same manner. A large bunch of fresh mint, bruised, is placed in a pint of strong cider vinegar. Let stand for two weeks, strain and it is ready for use. Mint vinegar made three years ago is aromatic and fine-flavored yet.

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED

Best for Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

What More is There?

A Missouri editor has figured it out that the women do not need any more rights, since a man can't sell his house and lot without his wife's consent; he must pay bills whatever they are; if he deserts her, she can sue him, if she deserts him he has to take his medicine; if he flirts he she can sue him for breach of promise; if she flirts him he gets the laugh; if he dies she gets the property, if she dies he gets the funeral expenses; if he whips her he gets the whipping post, if she hits him with the skillet the world concludes that he deserved it. And still she wants more rights.—Albany Ledger.

SOURD MILK FOR CHOLERA

Brooklyn Man Makes Suggestion of Simple Expedient for Stamping Out Disease of Hogs.

(By A. COCHRAN, Brooklyn, N. Y.) In the "hog belt" the loss from cholera is keenly felt. This loss in the United States last year was in excess of \$50,000,000. I believe this disease could be stamped out by the addition to the hog's ration of any of the several forms of "soured milk"—that is, of buttermilk or soured skim milk.

I know that farmers who are both hog raisers and dairymen often utilize skim milk in feeding hogs. Is there any record of animals so fed—where the milk has been allowed to sour— that have contracted cholera? Metchnikoff has shown the wonderfully inhibiting effect of lactic acid and the bacteria producing it upon the flora of the human intestine, and the idea has been applied with marked success to the control of "white diarrhoea" in chickens. It would appear that most intestinal diseases, both in man and the lower animals, would yield to the simple expedient of feeding a moderate quantity of soured milk daily. Why not try it on the hog?

Run No Risks.

The man who keeps high-class draft mares to perform his farm work cannot afford to put them into the hands of an incompetent hired man.

OUR PUBLIC FORUM

VIII.—C. E. Schaff

On Railway Investments

President Wilson, recently referring to our railroad problems, said in part: "They are indispensable to our whole economic life and railway securities are at the very heart of most investments, large and small, public and private, by individuals and by institutions. * * * There is no other interest so central to the business welfare of the country, as this. No doubt, in the light of the new day, with its new understandings, the problem of the railroads will also be met and dealt with in a spirit of candor and justice."

When the first citizen of the land stresses the importance of understanding and dealing justly with the railroads, certainly the American plowman can venture upon a careful study of the problem. C. E. Schaff, president of the M. K. & T. railway company, when asked to outline the relation of the public to railroads investments, said in part:

"It may be said that the railroad world is encumbered with a lot of phantoms which exist only in the popular fancy. For instance, because there have been a few so-called 'railroad magnates' whose names have figured prominently in finance, many people have come to believe that the railroads of the country are largely owned by a few rich men. As a matter of fact nothing could be farther from the truth. Out of the colossal sum of twenty billion dollars of American railroad securities, less than five per cent is now, or ever has been, in the hands of these men who have figured prominently in the newspaper headlines—while the other 95 per cent is in the hands of over two million investors, large and small, who in many instances have put the modest savings of a lifetime into these securities in order that they might lay away a competency for old age. When, therefore, the value of these securities is depressed or perchance destroyed, the hardship is a hundredfold greater upon thousands of every-day citizens, than upon the handful of millionaires, good or bad, who have figured prominently in railroad circles.

Hundreds of millions of dollars of the assets of our great life and fire insurance companies, savings banks, trust companies, educational and fiduciary institutions are invested in railroad bonds—and the moment, therefore, that the soundness of these bonds is called into question the financial solidity of these myriad institutions—directly affecting the welfare of millions of policyholders and bank depositors—is gravely menaced. During the last several years, many millions of dollars representing depreciated values, have been charged off the books of concerns like those enumerated above. American railroads have become a vital part of the very woof and fabric of the nation. Their continued efficiency is absolutely essential to the smallest community in the land.

In blindly striking at the railroads our blows fall not merely upon thousands who have committed no wrong, but, in the last analysis, upon ourselves. We should remember how interdependent we have come to be in this mighty republic of ours—that each is in truth become more and more his brother's keeper, and that we need to act and think circumspectly, lest in our mistaken zeal we destroy those who, like ourselves, need whatever of this world's goods the toil and sweat of years has bequeathed to them."
